Specifications

About this product

The Logitech M171 Wireless Mouse 910-004424 is a compact 3-button cordless mouse with smooth optical tracking, 1000 dpi resolution and a 2.4 GHz wireless USB receiver for reliable everyday computer use. Its compact design, 10 metre wireless range and 12 month battery life make it suitable for notebooks, laptops, desktops, home and office use. The USB receiver provides plug and play wireless connectivity, while the mouse uses 1 x AA battery and includes an on/off switch for convenient power management. Buy this Logitech M171 wireless mouse for quick delivery in South Africa.

Overview Summary

Logitech M171 Wireless Mouseis a compact and practical wireless mouse designed for everyday notebook, laptop and desktop computing. The 910-004424 model features a black and black finish, 3 buttons, a scroll wheel and Logitech smooth optical tracking with 1000 dpi resolution for accurate cursor control.

The 2.4 GHz wireless connection provides a range of up to 10 metres, allowing convenient operation without a mouse cable.

The compact USB receiver connects through a USB port, while the mouse uses 1 x AA battery with a rated battery life of up to 12 months. The receiver can be stored with the mouse for convenient portability.

The Logitech M171 is well suited to everyday browsing, office applications, schoolwork, home computing and notebook use. Its simple 3-button layout and optical tracking provide straightforward control without unnecessary complexity. Buy now for a practical wireless mouse solution.

Performance tier: Entry-level everyday wireless mouse

Uses: Notebook use, laptop computing, desktop computing, office work, home computing, web browsing, schoolwork

Description

The Logitech M171 910-004424 is a compact cordless mouse designed to provide straightforward wireless control for notebooks, laptops and desktop computers. It uses a 2.4 GHz wireless connection and a USB receiver, eliminating the need for a dedicated mouse cable and providing a wireless operating range of up to 10 metres.

The mouse uses Logitech smooth optical tracking with a 1000 dpi resolution for accurate everyday cursor movement. Its 3-button configuration consists of left click, right click and middle click, with a scroll wheel supporting line-by-line scrolling. This simple control layout is suitable for common computer tasks such as browsing websites, working with documents, navigating applications and managing files.

Power is supplied by 1 x AA battery, with Logitech specifying up to 12 months of battery life depending on usage and computing conditions. The mouse also has an on/off switch to help manage power when it is not required. The USB receiver is designed for convenient storage with the mouse, making the M171 suitable for users who regularly move between workspaces or carry a notebook between locations.

With its compact form, black and black finish, optical tracking and reliable 2.4 GHz wireless connection, the Logitech M171 provides a practical everyday pointing solution for home, office, education and mobile computing.

Features

The Logitech M171 combines essential mouse controls with wireless convenience in a compact design suitable for everyday computer use.

- 2.4 GHz wireless connection: Provides wireless mouse connectivity with a range of up to 10 metres.
- 1000 dpi optical tracking: Provides smooth optical cursor tracking for everyday computer tasks.
- 3-button design: Includes left click, right click and middle click controls.
- Optical scroll wheel: Supports line-by-line scrolling and everyday document and web navigation.
- USB receiver: Connects the mouse to a compatible computer through USB.
- Compact design: Suitable for notebook, laptop, desktop, home and office use.
- 12 month battery life: Uses 1 x AA battery with a rated battery life of up to 12 months.
- On/off switch: Allows the mouse to be manually switched off when not in use.
- Receiver storage: The compact wireless receiver can be stored with the mouse for convenient transport.
- Black and black finish: Provides a simple, understated appearance suitable for professional and home environments.

Reliable 2.4Ghz wireless
Strong, consistent wireless connection from distances up to 10-meters (33-feet) away. With virtually no delays or dropouts, you'll work and play with confidence. Tested to 10 meters, the wireless range may vary slightly based on your computing conditions and environment.

12-month battery life
Work for up to a year between battery changes. To extend the battery life, use the On/Off switch power off when not in use. Your battery life experience may vary slightly based on your computing conditions and how you use the mouse.

Plug-and-play connection
The M170/M171 Wireless Mouse is truly plug and play. Just insert the receiver into a USB port on your computer and begin using it right away. There is no need to pair the mouse or to download software in order to begin using it.

Comfortable and mobile
The shape of the mouse supports your hand for hours of comfortable use. The ambidextrous shape and the ability to reassign right and left button functions make M170/M171 the ideal mice for the right or left hand.
