Specifications

Overview:

Experience real world resolution with the new Samsung HU8700 Ultra-High Definition TV. Designed with our exclusive curved UHD TV technology, you enjoy an incredibly immersive picture quality at 4 times the resolution of Full HD. Explore the future of picture quality with the new HU8700 series.

Features:

Curved Panel
Samsung's curved screen is supported with proprietary technology that creates an accurate picture with exceptional color, without any picture distortion. It has a dramatically improved field of view that creates a panoramic effect and helps the picture feel bigger.

UHD Upscaling
UHD Upscaling delivers the complete UHD picture experience with a proprietary process including signal analysis, noise reduction, UHD upscaling and detail enhancement to seamlessly upconvert SD, HD or full HD content to near UHD-level picture quality.

UHD Dimming
UHD Dimming precisely scans an incredible amount of zones across the entire image and adjusts brightness to deliver deeper darks and brighter whites. It virtually eliminates the "halo" effect and image distortion, so you'll enjoy a crystal clear picture.

Precision Black Local Dimming
Experience sharper contrast with Precision Black Local Dimming. It dims LED lighting behind the darkest area of the picture for greater contrast and darker blacks, while the brighter elements remain as bright as they should be.

Ultra Clear Panel
The Samsung Ultra Clear Panel absorbs ambient light, reduces reflections and lets the picture come to life. It displays deeper

blacks and enhanced contrast for crystal clarity, reduces glare, so you can see clearly and enjoy more detail.

Wide Color Enhancer Plus
With Wide Color Enhancer Plus, you'll witness a wider spectrum of colors on your screen, just like the director intended. You'll enjoy enriched colors while watching your favorite movies and shows, even older, non-HD content.

Smart TV
Explore movies, shows, apps and social media on the intuitive and intelligent Samsung Smart TVs. Browse a new world of TV entertainment quickly and simply with a powerful processor and helpful tools like S Recommendation.

Smart Hub
Enjoy everything you love in one place. The Smart Hub organizes your entertainment into 5 easy to use panels. Effortlessly navigate through live TV, movies, streaming content, social networks, apps plus games and more.

Quad Core Plus
This powerful processor speeds up your Smart Hub experience. It gives you a fluid browsing experience and enables you to switch between apps, stream content and multi-task faster. Plus, your TV will turn on 4x faster with Instant On.

Smart View 2.0
Turn your phone, computer or tablet into a second TV with Smart View 2.0. Whatever is playing on your TV, Netflix, VOD or live TV is streamed to your mobile device as well. This lets you watch your favorite movies, shows and sports all around the house.

S Recommendation
Receive personalized TV and movie recommendations based on your own preferences and what's popular and trending. Just ask your TV things like "what action movies are on" or open the Smart Hub to browse suggestions.

Smart Remote Control
The Smart Remote Control gives you ultimate control of your Smart TV. Select TV functions by talking into the built-in microphone. You can also use the touchpad to navigate quickly, or use the remote like a mouse and simply point and click.

Quad Screen Multi-Link
Transform your TV into four screens that can access live TV, video clips and the web all at once. Watch your favorite golf tournament on one screen and search the web for current standings on another. Then watch a video tutorial to master your swing while navigating your Smart TV panel on the fourth screen.

Screen Mirroring
The screen mirroring feature allows you to mirror your phone or other compatible mobile device's screen onto the TVs screen wirelessly. This feature allows you to use your big screen television instead of your devices smaller screen for showing content, media playback, or other function

Voice Interaction
Easily control your TV with Voice Interaction. Voice command lets you talk to the TV to search what'son or to perform basic commands such as "last channel," "record" or "turn off." You can also add an acessory camera, which recognizes your hand motions to browse the Smart Hub, play games and more.

Samsung 3D
Enjoy full HD 1080p in both 2D and 3D modes with Samsung's active shutter glasses

Instant On
Tired of waiting for your HD TV to warm up? Your Samsung HD TV turns on 4 times faster with Instant On, so you can quickly begin browsing apps or watching your favorite movies, sports or shows.

Full Web Browser

Browse the web on your Smart TV to find the latest content. Enjoy everything from online shopping and social media browsing to entertainment news and the latest YouTube hits. Catch up on all the trending news and then go back to watching TV.

DTS Premium Sound | 5.1™ decoding

Delivers immersive 5.1 surround sound from any DTS-encoded content and converts any two channel audio content into a 5.1 DTS surround sound track for discrete surround sound playback. Experience surround sound with maximum bass response, dialog clarity and consistent volume levels from all your content, including Blu-ray movies, TV programming, streaming and games.
