

1 TO 4 PWM

Microworld fan Splitter 4 pin Adapter

Product Overview

Microworld fan Splitter 4 pin Adapter, 1 TO 4 PWM fan Splitter, Only one fans rpm is usually reported back to the Motherboard, Durable Black Braided cable, 30cm length

Specifications

Overview Summary:

This Microworld 4-Pin PWM Fan Splitter allows you to connect up to four cooling fans to a single motherboard fan header, perfect for enhancing the airflow in your gaming PC, server, or high-performance rig. With its durable black braided cable and 30cm length, this fan splitter offers flexibility without compromising on performance. Ideal for those with limited fan headers on their motherboard, it ensures your system stays cool during extended gaming sessions or demanding tasks. Buy now to boost your cooling efficiency!

Performance tier:High-performance

Uses:Gaming PCs, servers, high-performance rigs, cooling upgrades

Overview:

Microworld Fan Splitter 4-Pin Adapter - 1 to 4 PWM Connection

The Microworld Fan Splitter 4-Pin Adapter lets you expand your system's cooling setup efficiently. By connecting up to four fans to a single motherboard fan header, it helps maximize airflow in your computer case, making it ideal for gaming rigs, high-performance PCs, or servers. Compatible with both 3-pin and 4-pin PWM fans, this splitter ensures your system stays cool without the need for additional headers.

This fan splitter comes with a durable black braided cable measuring 30cm, providing a neat and organized installation while distributing power and PWM signals from your motherboard to multiple fans. Only one fan's RPM is reported back to the motherboard to prevent conflicts, ensuring smooth monitoring.

Features:

Connect Multiple Fans Easily

- Connect up to four fans using a single motherboard header
- Compatible with 3-pin and 4-pin PWM fan connectors
- Expands cooling capacity for cases with limited fan headers

Reliable Performance and Monitoring

- Distributes power and PWM signals efficiently
- Only one fan's RPM is reported back to the motherboard
- Helps maintain optimal system temperature for high-performance setups

Durable Design for Long-Lasting Use

- Constructed with a strong black braided cable
- 30cm length provides flexibility and neat cable management
- Ideal for gaming PCs, workstations, and server setups needing extra cooling

Simple Installation and Versatility

- Plug-and-play design for easy connection
- Works with multiple fan configurations without requiring additional hardware
- Supports enhanced airflow to improve overall system performance

Specifications	
Product Code	1 TO 4 PWM
Connector	1 x 4-Pin Female to 4 x 4-Pin Male
Function	Distributes PWM Signal and Power from the Motherboard to Multiple Fans
Control	Only one Fan's RPM is usually reported back to the Motherboard (to avoid conflicts)
Use Case	Ideal for Gaming PCs, Servers, or High-Performance Rigs needing extra Cooling
Material	Durable Black Braided Cable
Length	30cm
