Specifications

Features:

Smart Home

The simplest and most customizable user interface. LG Smart TV's all new Smart Home comes with an improved design, offering greater simplicity and more room for customization.

Pointing

Just point and click--a smart remote for your smart tv.

Wheel

Scroll up and down, zoom in and out with a wheel - just like using a computer mouse.

Gesture

Make a simple gesture to perform complex commands, saving time.

Voice

Speak to your Remote to find what you want.

Time Machine II

You don't have to worry about missing your favorite shows anymore. With the newly updated version of the LG's popular Time Machine feature, TV programs can be recorded so that you can rewind, pause, or re-watch your favorite shows.

- Internal Recording : Record shows right on the TV's built-in memory card.
- Watch & Record : record a TV show while you watch another channel.
- Live Playback : play, pause, rewind, save and rewatch your favorite shows on an external hard drive.
- Scheduled Recording : reserve a show you can't miss by scheduling a recording in advance.

Premium Content

The best selection of enjoyable content provided for you to access with ease. The Premium Content card selects and categorizes the most popular and useful content in your country, provided via partnership with the best content providers. Enjoy the best entertainment whenever you want.

LG Cloud

With the LG Cloud service you can play your contents on your Smart TV from anywhere, anytime. Quickly access videos, music, and photos from other devices, then enjoy them on your TV.

3D World

LG's 3D WORLD Card provides you with endlessly expanding 3D content, including movies, sports, music videos, educational clips, and more!

Game World

Enjoy a virtual game console inside your TV. LG Smart TV's Game World brings tremendous amount of fun with many games to download and enjoy. Within it await unlimited possibilities for gaming entertainment thanks to LG's patented Magic Remote, which is much like a console controller. Welcome to the groundbreaking union of TV and game console!

SMART SHARE

Browse and share files from external devices wirelessly on your large TV screen or watch TV on another smart device with LG Smart TV's Smart Share. LG introduces a true Smart TV that connects to other devices more easily than ever. Enjoy any content without constraint.

ComX Computers

Product Specification Sheet

MHL

Connect and watch HD content from your phone on the TV's large screen with your MHL cable and control it with the TV's Magic Remote. The phone is also charged while it is connected.

Miracast

WiFi Alliance certified Miracast™ allows you to enjoy easy and fast connection among TV, Smart phones, and Tablets without wires, enabling easy transfer and sharing of your digital contents right on the TV screen.

Tag On

Sharing between your mobile device and your television has never been simpler with Tag On, a feature that allows mutual content sharing and mirroring by simply "tagging" the smartphone to an NFC sticker provided with the TV.

Wireless Display

Intel's WiDi (Wireless Display) technology enables easy and fast connection between TVs and Laptop PCs without wires or internet network.

Comfortable 3D Glasses

Enjoy 3D wearing the most comfortable 3D glasses. CINEMA 3D glasses are light, flicker-free, battery-free, hassle-free and economical, allowing for greater viewing comfort and convenience.

Flicker-Free 3D

Enjoy a 3D TV that is more comfortable for your eyes, without the distracting flicker. Unlike conventional 3D TV, LG CINEMA 3D Smart TV is certified flicker-free and also provides brighter 3D images. It's easier on the eyes, delivering clear and crisp 3D that jumps out of the screen.

IPS Panel

Knock it to know it. The secret behind LG TV's superior viewing angle and quality is the panel. Just as the quality of the beans determines the quality of the coffee, the quality of the panel determines the quality of the TV. The IPS Panel used by LG is the reason why LG LED TVs have clearer, more consistent, and sturdy screens.

LED

Brilliant LED backlighting display delivers crystal-clear images, true blacks, and the most vivid, life-like colors on a slim screen.

Dynamic MCI 800

Motion Clarity Index is a comprehensive indicator of the genuine clarity of fast motion display, incorporating factors beyond mere frame rates. LG's detailed backlight scanning, advanced local dimming and powerful engine all add to a superb performance in reducing blur in fast-moving pictures.

Triple XD Engine

excellence in Color, Contrast, and Clarity for the best picture quality and performance. LG's latest and most advanced Triple XD Engine brings the highest level of Color, Contrast, and Clarity

Resolution Upscaler

Viewers can enjoy your content in high-resolution. Very often is the case that external content from the net or devices look bad on TV due to low resolution of the files. LG provides a solution with Resolution Upscaler, which magically improves the resolution of original content and makes them look good on the big screen as well.

Clear Voice II

Clear Voice II automatically recognizes and enhances the volume of human voices in movies and shows to make them more audible against background sound.

Smart Energy Saving

ComX Computers

Product Specification Sheet

The Backlight Control function controls the brightness of the TV. The Screen Off function lets you switch off the screen while keeping the audio on. Standby Mode Zero function sets your TV to a power saving mode where zero electricity is used.

HDMI

Consolidation of HD video, audio, and data in a single cable enables high speed communication.
