SteelSeries Arctis GameBuds PS5 Black Wireless Gaming Earbuds

Product Overview

SteelSeries Arctis GameBuds PS5 Black Wireless Gaming Earbuds, 2.4GHz Wireless and Bluetooth 5.3 connectivity with Quick-Switch feature, Up to 10 hours Battery Life per charge with up to 40 hours total with Case, Immersive 360 degrees spatial Audio including tempest 3D support, Active Noise Cancellation with transparency mode using 4-mic Hybrid system, IP55 Water and dust resistance for gym or rain use, Qi Wireless Charging Case compatible with USB-C Fast Charge, Neodymium Magnetic drivers, Wearsense In-Ear Detection Sensor for auto pause/Play functionality

Specifications

Overview Summary:

Experience the future of gaming audio with the SteelSeries Arctis GameBuds for PlayStation. Designed for players who demand perfection, these black wireless earbuds deliver next-level performance through a dedicated 2.4GHz low-latency connection or seamless Bluetooth 5.3 switching. South African gamers can now enjoy immersive Tempest 3D Spatial Audio that reveals critical gameplay details like footsteps and environmental sounds in real-time. With up to 10 hours of battery life on a single charge and an additional 30 hours from the Qi wireless charging case, you are ready for marathon gaming sessions without interruption.

The Arctis GameBuds combine superior sound quality with all-day comfort, tested by professional esports teams and featuring IP55 water resistance to withstand sweat and rain. Whether you are engaging in intense ranked matches or commuting, the Active Noise Cancellation and Transparency Mode ensure you stay connected to what matters most. Customize your audio presets via the Arctis Companion app and enjoy instant Quick-Switch functionality with a simple triple tap. Don't settle for compromise; upgrade your setup today and buy now to elevate your gaming experience.

Performance tier:Premium High-Performance Gaming

Uses:Competitive PlayStation 5 Gaming, Mobile Music Streaming, Voice Chatting, Esports Tournaments, Fitness Workouts, Commuting, PC Gaming, VR Experiences

Overview:

The SteelSeries Arctis GameBuds for PlayStation redefine wireless gaming audio by eliminating the compromise between high-fidelity gameplay and everyday convenience. Designed specifically to unlock the full potential of Tempest 3D Audio on PS5, these earbuds deliver a next-level performance that rivals traditional headsets while offering the freedom of a truly untethered experience. With a dedicated 2.4GHz wireless connection for gaming and Bluetooth 5.3 for mobile connectivity, users can seamlessly switch between platforms without missing a beat. The inclusion of over 100 PS5 audio presets allows gamers to tailor their soundscape in real-time directly from the console, ensuring every footstep, roar, and engine sound is heard with crystal clarity.

Beyond pure performance, comfort and durability are at the forefront of this design. After scanning 62,000 ears to determine the perfect fit, SteelSeries has engineered an ergonomic shape that remains secure during intense gaming sessions or workouts. The IP55 water resistance rating ensures protection against sweat and rain, while the Active Noise Cancellation with transparency mode gives users full control over their environment. Whether you are a competitive player needing precise audio cues or someone who enjoys music on the go, the Arctis GameBuds Part Number 61680 offer a versatile solution that

adapts to your lifestyle.

Description:

The SteelSeries Arctis GameBuds (Part Number 61680) are premium wireless gaming earbuds designed for PlayStation, PC, and mobile devices. Key benefits include instant low-latency connection via 2.4GHz wireless, immersive Tempest 3D Spatial Audio support, and a unique Quick-Switch system that toggles between game and music modes with a simple gesture. The charging case supports Qi wireless charging, providing up to 40 hours of total battery life, while the included companion app allows for deep customization of controls, EQ settings, and WearSense features.

Features:

Key Wireless Performance

Achieve low-latency gaming on PS5 without sacrificing audio quality. The dual-mode connectivity system ensures you are always connected to your device of choice with minimal delay. This setup includes a dedicated USB-C wireless nano-dongle that plugs directly into the console or PC for an instant 2.4GHz connection, while Bluetooth 5.3 handles mobile calls and music streaming effortlessly.

- Dual-mode connectivity supports both 2.4GHz gaming and Bluetooth 5.3
- Quick-Switch technology allows toggling between modes with a triple tap on the earbud
- Includes USB-C to USB-A adapter for broader device compatibility
- Low latency standard ensures no audio delay during competitive play

Immersive Audio and Customization

Hear exactly where sound is coming from with full support for Tempest 3D Audio on PlayStation. The system utilizes neodymium magnetic drivers to deliver a frequency response ranging from 20Hz to 20,000Hz. Users can access over 100 presets specifically tuned for different PS5 titles or create their own custom profiles using the SteelSeries Arctis Companion app or PC software.

- Fully supported Tempest 3D Spatial Audio for immersive gameplay
- Over 100 built-in audio presets optimized for specific games
- Separate saved presets automatically switch between gaming and mobile modes
- Customizable EQ and controls via companion software

Comfort, Durability, and Battery Life

The Arctis GameBuds are built to last through long gaming marathons and active lifestyles. The design includes small, medium, and large silicone eartips to ensure a secure fit for various ear shapes. With an IP55 rating, the buds resist water, dust, and splashes, making them suitable for gym sessions or outdoor use. The battery life is equally impressive, offering up to 10 hours per charge on the buds themselves.

- IP55 rated for water and dust resistance
- Includes three sizes of silicone eartips (Small, Medium, Large)
- Up to 10 hours of playtime per single charge
- Total battery life extends to 40 hours with the charging case
- Qi wireless charging compatible for convenient top-ups

Active Noise Control and Smart Sensors

Stay immersed in your game or aware of your surroundings thanks to the hybrid Active Noise Cancellation system. This feature utilizes four microphones to block out external noise, while a dedicated transparency mode lets you hear the world around you when needed. Additionally, WearSense technology automatically pauses media when you remove an earbud and resumes it when you put it back in.

- 4-mic hybrid Active Noise Cancellation system
- Transparency mode to hear surrounding sounds instantly
- In-ear detection sensor (WearSense) for auto pause/play functionality

- Sensors can be disabled via the companion app if desired

Battery and Charging Specifications

The included charging case not only stores your earbuds but also provides multiple additional charges on the go. For those who prefer a quick top-up, a fast-charge feature delivers three hours of playtime from just 15 minutes of charging. The case itself can be charged via the USB-C cable or by placing it on any Qi-compatible wireless charger.

- Fast charge capability: 15 minutes for 3 hours of use
- Full charge time for the case is approximately 90 minutes
- Supports both wired USB-C and Qi wireless charging methods
- Total combined battery life reaches up to 40 hours

What's in the box

The package includes everything needed to start gaming immediately. All components are designed for seamless integration with PlayStation consoles, PCs, and mobile devices.

- Arctis GameBuds Wireless Gaming Earbuds (Black)
- USB-C Wireless Nano-Dongle
- Qi Wireless Charging Case
- USB-C to USB-A adapter cable
- USB-C Charging Cable (1ft / 0.3m)
- Silicone Eartips in Small, Medium, and Large sizes
- Regulatory Information Booklet

Software Compatibility and Control

To get the most out of your earbuds, you can utilize the SteelSeries Arctis Companion app on mobile or the GG + Engine software suite on PC. These tools allow for deep customization including remapping button controls, adjusting EQ settings, and managing WearSense preferences.

- Mobile App: iOS 15.6+ and Android 9+
- PC Software: Windows 8.1+, Mac OS 10.13+
- Sonar Audio Software Suite required for ChatMix on PC (Windows 10+)

For users needing to pair the device or troubleshoot connectivity, the earbuds can be put into pairing mode by holding the button for three seconds while in the case. The LEDs will blink blue for Bluetooth pairing and green for the 2.4GHz dongle connection. Power management is also intuitive, with an auto-power down feature after 30 minutes of inactivity to conserve battery life.

FAQ

Which gaming platforms are compatible with the Arctis GameBuds?

The earbuds support instant plug-and-play connectivity on PS5, PC, Switch, VR, tablets, and handhelds via the included USB-C to USB-A converter. They also feature Bluetooth 5.3 for mobile devices, allowing you to Quick-Switch between gaming and music seamlessly.

How do I connect the earbuds to my console or device?

To use the low-latency 2.4GHz connection, simply plug in the included USB-C wireless nano-dongle; they come pre-paired for PS5 compatibility. For mobile devices or PC music playback, place both buds in the case and hold an earbud button for 3 seconds until the LEDs blink blue to enter Bluetooth pairing mode.

How long does the battery last on a single charge?

ComX Computers

Product Specification Sheet

You can expect up to 10 hours of playtime per charge using the 2.4GHz connection with ANC turned off, and up to 40 hours total when including the Qi wireless charging case. Additionally, a quick 15-minute fast charge provides approximately 3 hours of gameplay.

Can I customize the earbud controls or disable auto-pause?

Yes, you can remap single and double presses using the SteelSeries Arctis Companion app on mobile or GG software on PC. However, triple taps for Quick-Switching between 2.4GHz and Bluetooth cannot be changed. You can also disable WearSense to stop music from pausing automatically when you remove an earbud.

What audio features are included for immersive gaming?:

The Arctis GameBuds support Tempest 3D Audio and offer over 100 PS5 audio presets that can be adjusted in real-time without leaving the game. They also feature Active Noise Cancellation with a transparency mode, allowing you to mute outside noise or hear your surroundings as needed.
