Specifications

Overview:

Experience the ultimate entertainment with the Hisense 4K TV. Enjoy exceptionally detailed 4K quality for all your favorite content, from series to movies and games, immersing yourself in the action. With its Direct Full Array technology, the TV ensures consistent, stable blacks across the entire screen, while a wider color palette enhances the visual experience. Treat yourself to a premium viewing experience and elevate your entertainment setup with the Hisense 4K TV.

Features:

A pitch-Black Picture from Edge to Edge

In contrast to more common edge-lit LED screens, Direct Full Array distributes the light evenly across the screen for even and steady blacks.

The layers define the Story

A more dramatic viewing experience, with a well-defined sense of distance. With AI adaptive depth, now you can see a windy road that leads up to a crisp, snow-covered mountain with clearly-defined ridges and peaks.

See the Content in dazzling Details

Whether you want to catch up on the latest content or simply enjoy some time with your favourite immersive games, this TV delivers original content with better detail in the shadows and brighter highlights.

Stunning Entertainment Experiences Deserve Immersive TV Audio

DTS Virtual: X technology TV speakers brings entertainment alive by delivery enhanced tv sound and an immersive home theatre experience. The result? Sound appears to merge from all around you, without the need for a multi-speaker setup. You'll recognize richer bass, notice clearer dialog, and be amazed how it transforms your experience when watching movies, listening to music and playing games. All from just you're TV.

Stadium-level Enjoyment-Right in Your Home

AI Sports Mode enables the best picture and audio quality for the smoothest ever viewing experience. The stadium looks never before greener. As the player holds breath to get ready for an important goal, the eyebrow-frowning, mouth-trembling, all the trivial expressions can't be seen clear. The commentator's enthusiastic commentary speaks clear, the players; celebratory shouts as they score, audiences' screaming and cheering at a perfect goal. The immersive, wrap round sound pushes the ex-patience of watching a match to the very limit.
