## Product Overview

Manhattan CPU Cooler for P4 Socket 478 up to 3.0 GHz Retail Box

## Specifications

**Overview:**

Computers and their internal components can generate large amounts of heat during operation. Without reliable and efficient cooling, this heat can contribute to poor performance and lead to a shorter service life. MANHATTAN CPU Coolers conduct and dissipate heat away from processors to reduce the risk of heat damage and help them operate at safe temperatures and peak levels.

**Features:**

- Lightweight, rugged aluminum heat sink construction provides effective thermal conductivity and dissipation
- High-efficiency fan with ball bearing delivers quiet, reliable cooling
- Half-height Cooling fan for smaller cases
- Helps protect Intel P4 processors from heat damage
- Easy installation - ideal for new systems, upgrades and replacements
