Arctic Alpine 11 Pro Rev. 2 95W Intel CPU Cooler

Product Overview

Arctic Alpine 11 Pro Rev. 2 95W Intel CPU Cooler

Specifications

Overview:

The Alpine 11 PRO Rev.2 is the ideal cost-efficient heatsink for system builders. The multi compatible cooler is suitable for upgrade or replacement of noisy stock coolers.

Features:

Silent Operation
The buffered-mounted 92 mm PWM fan with low noise impeller silently cools down your CPU with up to 95 W. The fan creates even at full speed only 0.4 sone and hence is almost inaudibly silent.

Easy Installation
The unique mounting system via push pins offers excellent stability and is applicable within seconds. The pre-applied ARCTIC MX-2 thermal compound makes the installation a clean process. The cooler is compatible to socket 775, 1155 and 1156.
