Specifications

About this product

The PORT Connect 900802 is a Bluetooth rechargeable numeric keypad designed for professionals seeking wireless flexibility. It features curved keys for comfort, precision typing, and seamless compatibility with Windows and macOS, providing a reliable solution for data entry and administrative tasks.

Overview Summary

Product:PORT Connect 900802 Bluetooth Rechargeable Numeric Keypad

The PORT Connect 900802 delivers wireless performance and convenience with a rechargeable battery, eliminating the need for replaceable batteries. Its Bluetooth connection ensures compatibility with laptops and desktops, offering freedom of movement without compromising on reliability or response time.

Designed for comfort and efficiency, the keypad features curved keys that reduce typing errors and fatigue. It includes advanced functions such as correction, tabulation, and numeric lock, making it suitable for accounting, administrative, and intensive data entry tasks.

Performance tier:Mid-range

Uses:Data entry, accounting, office administration, portable numeric input, professional laptop accessory

Description

The PORT Connect 900802 is a rechargeable Bluetooth numeric keypad designed to enhance productivity for professionals on the move. Its curved key design provides comfortable typing and reduces errors, while the numeric lock and correction keys add functionality for data management. Ideal for accounting, spreadsheets, and other numeric-intensive tasks, it integrates seamlessly with Windows and macOS systems.

With its slim and lightweight design, the keypad is highly portable and can be used anywhere, whether at a desk or on the go.

The rechargeable battery provides long-lasting use, making it a practical solution for wireless numeric input without the hassle of disposable batteries.

Features:

Performance and Flexibility

Discover the Bluetooth(R)Rechargeable Numeric Keypad from PORT Designs, designed for professionals on the go. With its reliable Bluetooth(R)connection, it perfectly adapts to your laptop or desktop, offering unparalleled wireless flexibility. Enjoy extended autonomy with its integrated rechargeable battery, eliminating the need for replaceable batteries.

Comfort and Precision

Our curved keys are specially designed to offer optimal user comfort and increased precision. Whether you are using Windows (R)or macOS(R), our numeric keypad seamlessly integrates with your system, ensuring a smooth and efficient user experience. Each key is designed to minimize typing errors, thereby enhancing your productivity.

Advanced Features

The Bluetooth(R)Rechargeable Numeric Keypad from PORT Designs is equipped with correction and tabulation keys, simplifying data management. The numeric lock function adds an extra layer of security, allowing you to work with confidence. Ideal for administrative, accounting, and intensive data entry tasks.

Portability and Design

Designed for professionals on the move, this numeric keypad features a slim and lightweight design that fits easily into any bag. Whether you are on the go or at your desk, its portability and sleek design make it an essential accessory to optimize your productivity.

FAQ

Does this numeric keypad work with both Windows and Mac?

Yes, the PORT Connect 900802 is compatible with Windows and macOS systems and can also function with other universal devices via Bluetooth connection.

Is the keypad rechargeable or does it use replaceable batteries?

The keypad has an integrated rechargeable battery, providing extended use without the need for disposable batteries.

Does it have special keys for data entry?

Yes, it includes numeric lock, correction, and tabulation keys for efficient and accurate data entry.

Is it portable for travel or mobile use?

Yes, the slim and lightweight design makes it easy to carry in a bag and use on the go, ideal for professionals who need numeric input while traveling.
