Buy now from our website for dependable wireless performance and quick delivery in South Africa.

Overview Summary

Logitech M185 Wireless Mouse - Red

The Logitech M185 Wireless Mouse is designed for users looking for reliable wireless performance and everyday comfort. Its ergonomic contoured shape fits naturally in either hand, while the compact design makes it easy to carry between home, office, or travel. The included nano receiver simply plugs into an available USB port, allowing quick setup without additional software on supported operating systems.

Using a dependable 2.4GHz wireless connection, the M185 provides responsive cursor control with Logitech Advanced Optical Tracking. An integrated on/off switch helps conserve power, allowing the included AA battery to provide up to 12 months of typical use. The mechanical scroll wheel and three-button layout make navigation simple for productivity, web browsing, and everyday computing tasks.

Performance tier: Entry-level everyday wireless mouse

Uses: Office work, home computing, web browsing, education, laptop users, desktop users, travel

Description

The Logitech M185 Wireless Mouse combines comfort, reliability, and simple operation in a compact wireless mouse suitable for everyday use. Its contoured shape provides comfortable support during extended use, while the full-size layout offers familiar control for both left and right-handed users.

The included nano receiver creates a reliable 2.4GHz wireless connection that helps reduce delays and dropouts during normal operation. Simply insert the receiver into an available USB port and begin using the mouse without complicated installation on supported operating systems.

Logitech Advanced Optical Tracking delivers smooth and accurate cursor movement across a variety of common surfaces, making the mouse suitable for productivity, document editing, spreadsheets, browsing, and general computer use. With an integrated power switch and efficient power management, the included AA battery can provide up to 12 months of typical use before replacement.

- Uses 1 x AA battery.
- On/off power switch to help conserve battery.
- Compact and lightweight design for travel.
- Compatible with Windows, macOS, ChromeOS, and Linux supported versions.

ComX Computers

Product Specification Sheet

Plug-and-forget nano receiver

It works with Window-based and Mac computers. So small and unobtrusive, you can plug it into a USB port and forget about it. Plus, you can say good-bye to worries about lost receivers.

1-year battery life*

You can go for a year without battery hassles. The On/Off switch and smart sleep mode help conserve power. (* Battery life may vary based on user and computing conditions.)

Logitech reliability

You get the high quality and reliability that have made Logitech the global leader for mice.

Logitech Advanced 2.4 GHz wireless connectivity

You get the reliability of a cord with wireless convenience and freedom-fast data transmission and virtually no delays or dropouts.

Plug-and-play simplicity

No software, no hassles-you simply plug in the tiny nano receiver and start using your mouse right away.

Comfy, contoured shape

The contoured design feels good in either hand and offers more comfort than a touchpad.

Perfect for laptops and netbooks

Your mouse works with Windows, Mac and Linux. No matter what type of computer you own today-or buy tomorrow-you can depend on your mouse to work like you expect.

FAQ

What is the Logitech M185 Wireless Mouse used for?

The Logitech M185 is designed for everyday computing, including office work, web browsing, schoolwork, and home use.

Does the Logitech M185 require software?

No. The mouse works using the included nano USB receiver and does not require additional software for basic operation on supported operating systems.

How long does the battery last?

The Logitech M185 can provide up to 12 months of battery life using a single AA battery, depending on usage.

Can the Logitech M185 be used with a laptop?

Yes. The compact design and nano USB receiver make it suitable for laptops as well as desktop computers.

Is the Logitech M185 suitable for left and right-handed users?

Yes. The comfortable symmetrical design is suitable for both left and right-handed users.

What type of wireless connection does the M185 use?

The mouse uses a reliable 2.4GHz wireless connection through the included nano USB receiver.
