About this product

The Logitech M171 Rose Wireless Mouse (910-006865) delivers reliable wireless connectivity, smooth 1000 DPI optical tracking and convenient plug-and-play operation for everyday computing. Featuring a compact, ambidextrous design for left and right-handed users, a 2.4 GHz wireless connection with up to 10 metres of range, and up to 12 months of battery life from a single AA battery, this stylish rose mouse is ideal for laptops, desktop computers, home offices and business use. Buy the Logitech M171 Rose Wireless Mouse online today for convenient, cable-free computer control.

Overview Summary

Logitech M171 Rose Wireless Mouse - 910-006865

The Logitech M171 Rose Wireless Mouse combines dependable performance with a compact design and a distinctive rose finish. Its 2.4 GHz wireless connection uses a USB receiver to provide a wireless operating range of up to 10 metres, giving you greater freedom to work without a mouse cable across your desk.

The 1000 DPI optical tracking system provides responsive cursor movement for everyday computer tasks, while the three-button layout and optical scroll wheel make navigating documents, websites, spreadsheets and applications straightforward. Its ambidextrous shape suits both left-handed and right-handed users, and the included AA battery offers up to 12 months of battery life, depending on usage and computing conditions.

Performance tier:Entry-level everyday wireless computing

Uses:Home computing, office productivity, laptop navigation, desktop computing, online browsing, document editing, studying, travel and mobile workstations

Description

The Logitech M171 Rose Wireless Mouse is designed to make everyday computer use simple, convenient and comfortable. Its compact form makes it easy to carry in a laptop bag, while the rose colour adds a stylish touch to your workspace. Whether you are working from home, studying, travelling or using a desktop computer in the office, this wireless mouse offers practical navigation without the restrictions of a wired connection.

Wireless connectivity operates on the 2.4 GHz frequency band through the included USB receiver. Simply connect the receiver to an available USB port on a compatible computer to get started. The mouse provides a wireless range of up to 10 metres under suitable conditions, allowing you to control your computer from a comfortable distance.

The optical tracking system is rated at 1000 DPI, supporting smooth cursor movement for common productivity tasks. The left and right buttons handle everyday selections and commands, while the middle button and scroll wheel help you move through long documents, webpages and spreadsheets.

Designed for either hand, the Logitech M171 offers an ambidextrous layout that accommodates both left-handed and right-handed users. An integrated on/off switch helps manage power when the mouse is not being used. The included AA battery provides up to 12 months of battery life, although actual performance depends on usage and computing conditions.

Compatible with supported Windows, macOS, ChromeOS and Linux systems, the Logitech M171 Rose is a practical option for everyday office work, home computing and portable laptop setups. Check that your device has an available USB port and supports the relevant operating system before purchasing.

Features

The Logitech M171 Rose Wireless Mouse combines essential navigation functions, convenient wireless operation and a portable design for daily computer use.

ComX Computers

Product Specification Sheet

- 2.4 GHz wireless connectivity: Connect through the included USB receiver for cable-free mouse operation.
- Up to 10 metres of wireless range: Provides flexibility when working at a desk or controlling a compatible computer from a short distance.
- 1000 DPI optical tracking: Supports smooth cursor movement for browsing, document editing and general productivity.
- Three-button design: Includes left-click, right-click and middle-click functionality for familiar computer navigation.
- Optical scroll wheel: Enables convenient line-by-line scrolling through documents, webpages and spreadsheets.
- Ambidextrous design: Suitable for left-handed and right-handed users.
- Compact and portable: Easy to carry with a laptop for work, study or travel.
- Up to 12 months of battery life: Operates using one AA battery, with actual battery life dependent on usage and computing conditions.
- Convenient on/off switch: Allows you to switch the mouse off when it is not in use.
- Plug-and-play setup: Uses a USB receiver for straightforward installation on compatible devices.
- Logi Options+ support: Compatible with the optional customisation application on supported Windows and macOS systems.
- Rose finish: Adds a distinctive colour to your computer accessories.

Any hand, anywhere

The compact, wireless M171 has a fully ambidextrous design that easily fits within your laptop bag, so you can get to work anywhere-whether you're left- or right-handed.

Plug & play wireless

Connect in 3 seconds¹¹ Tested by Logitech with 50 persons in Switzerland (2022) and get up to 10 meters¹² Wireless range may vary based on user, environmental and computing conditions of wireless freedom with a strong, reliable USB receiver. That means no delays, no dropouts. M171 is compatible with Windows, macOS, Chrome OS and Linux and works instantly when you plug the USB receiver into your computer or laptop.

Easy Navigation, Smooth Control

Easy navigation thanks to a controlled line-by-line scrolling and optical tracking. The optical sensor gives you smooth and accurate cursor control on almost any surface. That means accurate mouse movements with no more annoying missed clicks.

Quality you can rely on

The mouse is built with the same high quality standards that have made Logitech the global leader for mice and keyboards

Better than a touchpad

Using a mouse is more ergonomic than a touchpad¹⁵ Logitech Ergonomic Lab study on 23 participants in (Oct / 2019) with two Logitech standard mice and two standard, embedded trackpads. The compact shape and wireless capability lets you work comfortably -at home, the office, or anywhere in between.

Decades of Design Excellence

We bring over 25 years of expertise and innovation creating mice of various sizes and shapes that provide an extra degree of comfort. Our solutions are meticulously crafted to fit right- or left-handed users, making it easier to find the product that's right for you.

Wireless simplicity

M170 is ready when you are. Simply plug the receiver into a USB port on your device to start working in seconds. The small size and smooth cursor control make it great for tight workspaces and busy desks. Enjoy the world of wireless!

FAQ

Is the Logitech M171 Rose Wireless Mouse suitable for laptops?

Yes. Its compact design and USB wireless receiver make it suitable for compatible laptops with an available USB port.

How does the Logitech M171 connect to a computer?

The mouse connects wirelessly using the included 2.4 GHz USB receiver. Insert the receiver into an available compatible USB port to begin using the mouse.

Does the Logitech M171 support Bluetooth?

No. The Logitech M171 uses a 2.4 GHz wireless USB receiver rather than Bluetooth connectivity.

What is the DPI of the Logitech M171 Rose Mouse?

The Logitech M171 uses optical tracking with a rated resolution of 1000 DPI for everyday cursor control and computer navigation.

What is the wireless range of the Logitech M171?

The mouse offers a wireless range of up to 10 metres. Actual range may vary depending on environmental conditions and the computer setup.

How long does the Logitech M171 battery last?

A single AA battery can provide up to 12 months of battery life. Actual battery life varies according to usage and computing conditions.

Is the Logitech M171 suitable for left-handed users?

Yes. Its ambidextrous design is intended for both left-handed and right-handed users.

How many buttons does the Logitech M171 have?

The mouse has three buttons: left-click, right-click and middle-click, along with an optical scroll wheel.

Which operating systems support the Logitech M171?

The mouse supports compatible systems running Windows 10, Windows 11 or later, macOS 10.8 or later, ChromeOS and Linux kernel 2.6 or later. An available USB port is required for the receiver.

Is the Logitech M171 Rose Wireless Mouse suitable for office and study use?

Yes. It is suitable for everyday office tasks, studying, browsing, email, spreadsheets and document editing. It is designed for general computer use rather than specialised gaming performance.
