Specifications

About this product

The Logitech M171 Blue and Grey Wireless Mouse (910-006866) delivers convenient, reliable wireless control for everyday computing at home, in the office or while travelling. Featuring a 1000 DPI optical sensor, 2.4 GHz wireless connectivity with a range of up to 10 metres, and a compact ambidextrous design, this 3-button mouse provides smooth cursor movement for work, study and browsing. The plug-and-play nano USB receiver makes setup simple, while the included AA battery offers up to 12 months of battery life under typical usage conditions. Buy the Logitech M171 wireless mouse online in South Africa for comfortable, cable-free productivity.

Overview Summary

Logitech M171 Blue and Grey Wireless Optical Mouse

The Logitech M171 is a compact wireless mouse designed to make everyday computer use simple and convenient. Its 2.4 GHz wireless connection and USB nano receiver provide a wireless operating range of up to 10 metres, helping keep your

desk free from unnecessary cable clutter. The plug-and-play setup allows you to connect the receiver to an available USB port and start working without a complicated installation process.

The 1000 DPI optical tracking sensor supports smooth cursor navigation, while the three-button layout includes left-click, right-click and a clickable scroll wheel for efficient browsing and document handling. Its ambidextrous shape accommodates both left-handed and right-handed users. Powered by one included AA battery, the M171 offers up to 12 months of battery life, depending on usage and computing conditions.

Performance tier:Entry-level wireless productivity

Uses:Office work, home computing, student assignments, web browsing, email, document editing, laptop use, everyday desktop navigation

Description

The Logitech M171 Blue and Grey Wireless Mouse (910-006866) is designed for users who want dependable everyday mouse control without the restrictions of a wired connection. Its compact design makes it suitable for desktop workstations, home offices, study areas and mobile computing setups. The Blue and Grey finish adds a subtle touch of colour to your computer accessories.

Using 2.4 GHz wireless technology, the M171 connects through its included nano USB receiver and supports a wireless range of up to 10 metres under suitable conditions. This gives you flexibility when navigating your computer from a desk or presentation area. The plug-and-play connection keeps installation straightforward, provided your computer has a compatible USB port.

The 1000 DPI optical sensor provides responsive cursor tracking for common productivity tasks, including browsing websites, managing files, editing documents and working with spreadsheets. Its three-button configuration includes standard left and right clicks and a clickable scroll wheel for convenient page navigation.

The ambidextrous design supports both left-handed and right-handed users, making it a practical option for shared workstations and everyday personal computing. A single AA battery powers the mouse, with a rated battery life of up to 12 months depending on usage and operating conditions. An on/off switch helps manage power when the mouse is not being used.

Whether you need a wireless mouse for a laptop, home computer, schoolwork or office tasks, the Logitech M171 combines simple setup, portable dimensions and practical everyday functionality in one compact accessory.

Features

The Logitech M171 combines convenient wireless connectivity with straightforward controls for everyday computing.

- 2.4 GHz wireless connection: Enjoy cable-free mouse control with an operating range of up to 10 metres under suitable conditions.
- Plug-and-play setup: Connect the included nano USB receiver to a compatible USB port for a simple setup process.
- 1000 DPI optical tracking: Navigate documents, applications and websites with smooth optical cursor tracking.
- Three-button design: Use left-click, right-click and the clickable scroll wheel for everyday computer navigation.
- Ambidextrous shape: Suitable for both left-handed and right-handed users.
- Compact and portable: Its lightweight design makes it convenient to carry with a laptop or keep on a busy desk.
- Long battery life: One AA battery provides up to 12 months of battery life, depending on usage and computing conditions.
- On/off switch: Switch off the mouse when it is not in use to help conserve battery power.
- Blue and Grey finish: A practical colour combination for home and office computer setups.

Any hand, anywhere

The compact, wireless M171 has a fully ambidextrous design that easily fits within your laptop bag, so you can get to work anywhere-whether you're left- or right-handed.

Plug & play wireless

Connect in 3 seconds11Tested by Logitech with 50 persons in Switzerland (2022) and get up to 10 meters12Wireless range may vary based on user, environmental and computing conditions of wireless freedom with a strong, reliable USB receiver. That means no delays, no dropouts. M171 is compatible with Windows, macOS, Chrome OS and Linux and works instantly when you plug the USB receiver into your computer or laptop.

Easy Navigation, Smooth Control

Easy navigation thanks to a controlled line-by-line scrolling and optical tracking. The optical sensor gives you smooth and accurate cursor control on almost any surface. That means accurate mouse movements with no more annoying missed clicks.

Quality you can rely on

The mouse is built with the same high quality standards that have made Logitech the global leader for mice and keyboards

Better than a touchpad

Using a mouse is more ergonomic than a touchpad15Logitech Ergonomic Lab study on 23 participants in (Oct / 2019) with two Logitech standard mice and two standard, embedded trackpads. The compact shape and wireless capability lets you work comfortably -at home, the office, or anywhere in between.

Decades of Design Excellence

We bring over 25 years of expertise and innovation creating mice of various sizes and shapes that provide an extra degree of comfort. Our solutions are meticulously crafted to fit right- or left-handed users, making it easier to find the product that's right for you.

FAQ

How does the Logitech M171 wireless mouse connect to a computer?

The Logitech M171 connects using 2.4 GHz wireless technology and the included nano USB receiver. Insert the receiver into a compatible USB port to get started. Bluetooth connectivity is not supported.

What is the wireless range of the Logitech M171?

The Logitech M171 has a wireless range of up to 10 metres. Actual range may vary depending on the environment, interference and the connected computer.

What is the DPI of the Logitech M171 mouse?

The Logitech M171 uses a 1000 DPI optical tracking sensor for everyday cursor control, document editing, web browsing and general computer tasks.

How long does the Logitech M171 battery last?

The included AA battery provides up to 12 months of battery life. Actual battery life depends on usage and computing conditions.

Is the Logitech M171 suitable for left-handed users?

Yes. The Logitech M171 features an ambidextrous design intended for both left-handed and right-handed users.

Can I use the Logitech M171 with a laptop?

Yes. The Logitech M171 is suitable for compatible laptops with an available USB port. It is a practical option for mobile working, studying and everyday browsing.

Does the Logitech M171 support Bluetooth?

ComX Computers

Product Specification Sheet

No. This model uses a 2.4 GHz wireless connection through its included nano USB receiver rather than Bluetooth.

Is the Logitech M171 suitable for gaming?

The Logitech M171 can handle casual computer games and general navigation. Its 1000 DPI tracking and everyday productivity design make it primarily suited to office work, browsing and standard computing rather than specialised competitive gaming.

What is included with the Logitech M171 Blue and Grey mouse?

The package includes the Logitech M171 wireless mouse, a nano USB receiver, one pre-installed AA battery and user documentation.
