Specifications

About this product

The Logitech MX Master 4 Graphite Wireless Mouse (910-007562) is a premium productivity mouse designed for professionals, creatives and everyday power users. Featuring an 8,000 DPI Darkfield sensor, customisable haptic feedback, quiet clicks, MagSpeed electromagnetic scrolling and a dedicated thumb wheel, it delivers precise control and efficient navigation across compatible devices. Connect using Bluetooth Low Energy or the included Logi Bolt USB-C receiver, and customise shortcuts with Logi Options+ software. Buy the Logitech MX Master 4 online for a smarter, more comfortable and productive workspace in South Africa.

Overview Summary

Logitech MX Master 4 Graphite Wireless Mouse

The Logitech MX Master 4 is a high-performance wireless mouse built for productivity, precision and personalised control. Its 8,000 DPI Darkfield sensor tracks accurately across a wide range of surfaces, including glass with a minimum thickness of 4 mm. The MagSpeed electromagnetic scroll wheel supports rapid scrolling of up to 1,000 lines per second, while the dedicated thumb wheel helps users navigate horizontal content and compatible applications.

The Haptic Sense Panel delivers customisable tactile feedback for supported actions, shortcuts and notifications. With Logi Options+ software, users can configure buttons, gestures, supported application plugins and Actions Ring shortcuts. Bluetooth Low Energy and the included Logi Bolt USB-C receiver provide wireless connectivity, while Easy-Switch enables connection to and switching between up to three compatible devices. Quiet clicks and an ergonomic, right-handed design make this mouse suitable for focused work, creative projects and extended desktop use.

Performance tier:Premium professional productivity

Uses:Office productivity, business computing, graphic design, photo editing, video editing, programming, data analysis, multitasking, multi-device workflows

Overview

Meet the MX Master 4 that brings immersive control and precision you can feel with customizable haptic feedback on specific actions. Save up to 33% of your time with Actions Ring shortcuts and MX Master 4, by accessing tools and filters at your cursor. Additional features: 2x better connectivity, ultra fast scrolling with the MagSpeed scroll wheel, 8k DPI any surface tracking, including glass & Logi Options+ for customization.

Description

The Logitech MX Master 4 Graphite Wireless Mouse combines precision tracking, customisable controls and advanced scrolling features in a design intended for demanding computer workflows. It is suited to professionals who work with large spreadsheets, creative applications, multiple documents and several connected devices throughout the day.

Customisable haptic feedback

The Haptic Sense Panel provides tactile feedback for supported actions, shortcuts and notifications. Users can customise the feedback intensity and supported events through Logi Options+ software. Compatible features include Actions Ring shortcuts, selected gestures, Smart Actions and supported application plugins. Haptic functionality depends on the operating system, software version and supported applications.

Fast and precise scrolling

The MagSpeed electromagnetic scroll wheel supports both precise, line-by-line navigation and high-speed scrolling of up to 1,000 lines per second. A separate thumb wheel supports horizontal navigation, making it useful for wide spreadsheets, timelines and detailed creative projects.

Accurate tracking across surfaces

The 8,000 DPI Darkfield sensor provides precise cursor control across a range of surfaces, including qualifying glass surfaces. Adjustable sensitivity helps users tailor cursor movement to their screen size and preferred working style.

Wireless connectivity and multi-device control

Connect the mouse through Bluetooth Low Energy or the included Logi Bolt USB-C receiver. Easy-Switch allows users to connect and switch between up to three compatible devices, supporting workflows involving a desktop computer, laptop or tablet. Compatibility and available functions vary by operating system and connection method.

Comfort-focused design and quiet operation

The sculpted, right-handed design supports the hand during extended use, while quiet clicks help reduce clicking noise in shared offices and home workspaces. The rechargeable battery charges through USB-C and provides up to 70 days of use on a full charge under manufacturer test conditions. Actual battery life varies according to usage and settings.

Features

The Logitech MX Master 4 is designed to improve precision, navigation and workflow efficiency through a combination of hardware controls and customisable software.

- 8,000 DPI Darkfield sensor: Provides accurate tracking across a wide range of surfaces, including compatible glass surfaces.

FAQ

What is the Logitech MX Master 4 wireless mouse used for?

The Logitech MX Master 4 is designed for office productivity, business computing, creative work, programming, data analysis and multitasking. Its precision sensor, scrolling controls and customisable shortcuts support efficient navigation in compatible applications.

Does the Logitech MX Master 4 support Bluetooth?

Yes. It supports Bluetooth Low Energy and also includes a Logi Bolt USB-C wireless receiver. The appropriate connection depends on the device and its available ports.

What is the maximum DPI of the Logitech MX Master 4?

The Darkfield sensor supports adjustable sensitivity from 200 to 8,000 DPI, allowing users to customise cursor movement for their screen size and working preferences.

Does the Logitech MX Master 4 have silent clicks?

The mouse features quiet-click technology designed to reduce clicking noise while maintaining a tactile clicking feel. It is suitable for shared offices, home offices and other environments where reduced noise is beneficial.

What does the haptic feedback feature do?

The Haptic Sense Panel provides tactile feedback for supported actions, shortcuts and notifications. Users can customise supported feedback settings through Logi Options+. Available functions depend on the operating system, application and installed software plugins.

Does the Logitech MX Master 4 work on glass?

Yes. Its Darkfield sensor can track on compatible glass surfaces with a minimum thickness of 4 mm. Tracking performance can vary depending on the surface.

How many devices can the Logitech MX Master 4 connect to?

The mouse supports connections to up to three compatible devices. Easy-Switch lets users move between connected devices without repeatedly pairing the mouse.

How long does the Logitech MX Master 4 battery last?

Logitech specifies up to 70 days of use on a full charge under manufacturer test conditions. Actual battery life depends on usage, settings and the use of features such as haptic feedback.

Does the Logitech MX Master 4 include a charging cable?

The standard package includes the mouse, a Logi Bolt USB-C receiver and documentation. A USB-C charging cable is not included.

Which software is required to customise the Logitech MX Master 4?

Logi Options+ is used to customise supported buttons, gestures, Actions Ring shortcuts, haptic feedback and application integrations. Some features require compatible software, operating system versions or plugins.

Is the Logitech MX Master 4 suitable for graphic design and video editing?

Yes. Its adjustable sensor, dedicated thumb wheel, MagSpeed scrolling and configurable controls can support design, photo
