Overview

Logitech Wave Keys & Lift Vertical Mouse - Ergonomic Wireless Keyboard and Mouse Combo - with Cushioned Palm Rest, Easy-Switch, Bluetooth, for Multi-OS, Windows/Mac

Description

The Logitech Wave Keys & Lift Combo is designed for users who want to improve comfort and organisation at their workstation. Combining a compact ergonomic keyboard with a vertical mouse, this wireless set offers practical features for everyday computer use, office productivity and extended periods of typing and navigation.

The Wave Keys keyboard has a distinctive wave-shaped design that supports a comfortable typing position. Its integrated cushioned palm rest provides support for the wrists, while the compact frame helps keep the mouse closer to the body. This layout can help users maintain a more relaxed desk position during work, study and other computer-based tasks. The keyboard connects through Bluetooth Low Energy or the included Logi Bolt USB receiver, giving users flexibility when setting up a compatible device.

The Logitech Lift vertical mouse is designed to encourage a more natural handshake position. Its 57-degree vertical angle, textured rubber grip and thumb rest provide a comfortable shape for small to medium-sized hands. The SmartWheel supports both precise line-by-line scrolling and faster movement through long documents and web pages. Adjustable cursor sensitivity provides additional control when switching between detailed work and general navigation.

Easy-Switch functionality on the mouse allows pairing with up to three devices, making it useful for users who move between compatible computers and other supported devices. The combo supports multiple operating systems, including Windows, macOS, ChromeOS, Linux, iPadOS, iOS and Android, subject to the connection method and system requirements.

With a graphite finish, wireless operation and battery-powered design, the Logitech Wave Keys & Lift Combo is a practical choice for office professionals, remote workers, students and home users seeking an ergonomic keyboard and mouse solution.

Feel the Wave, Feel the Lift

Get comfier with Wave Keys and Lift, designed for less pressure and improved wrist and forearm posture at the desk. Great fit for small to medium hands.

Approved by Ergonomists

Designed, developed and tested with the Logi Ergo Lab, and with the stamp of approval from United States Ergonomics, you can rest assured Wave Keys and Lift means business when it comes to your wellbeing in the workspace.

Compact keys with all you need

Wave Keys' compact frame allows you to bring Lift closer to your body, placing your shoulder in a comfier, more natural position as you work.* (*Mouse and keyboard plastic content: minimum 46% post-consumer recycled plastic. Excluding plastic in printed wiring assembly, receiver, battery, and packaging)

Feel the pressure lift

Not just a cushioned palm rest. Three layers of textural comfort work together to give your wrists the support you need.

Raise your hand into Comfort

Desk days feel delightful up in a natural handshake position at 57degrees. Let your hand unwind there as you work, snuggled on a snug thumb rest.

Relax into Focus

With speed and precision scrolling modes, Lift's SmartWheel makes work a smooth sail whether you're editing line by line or flying through documents. Plus, quiet as a whisper, Lift helps focus the things that matter.

Smoother Days, Your Way

Relax into focus with fluid, natural typing, and personalize Wave keys and Lift using Logi Options+ App to save time and keep your work flowing. You can even customize your shortcuts for specific apps.* (*Download optional customization Logi Options+ App, available for recent versions of Windows and macOS at app.logi.com)

Peaceful productivity

Connect your devices in no time using Bluetooth wireless technology or the included Logi Bolt receiver. Easy-Switch between your computer, tablet or phone in a tap.* (*Device basic functions will be supported without additional drivers for operating systems other than Windows(RegTM) and macOS)
