Logitech G29 Driving Force Steering Wheel And Pedals For Ps4-5

Product Overview

Logitech G29 Racing Steering Wheel And Pedals - PlayStation 3, PlayStation 4, PlayStation 5 and PC, Analogue gaming control, Wired connectivity, USB 2.0 Interface, Support operating system from Windows 7 Upwards. 900 Degree dual-motor feedback; leather wheel; stainless steel paddles; 3 pedals (nonlinear brake); USB connectivity; PS5/PS4/PC compatible

Specifications

About this product

The Logitech G29 Racing Steering Wheel and Pedals deliver a premium driving experience for PlayStation 3, PlayStation 4, PlayStation 5, and PC gamers. Featuring 900 degree dual-motor force feedback, a leather-wrapped wheel, stainless steel pedals, and nonlinear brake, it offers precision and realism. Buy now from our website for quick delivery in South Africa and elevate your racing setup.

Overview Summary

Product:Logitech G29 Racing Steering Wheel And Pedals

The Logitech G29 provides a high-fidelity racing experience with 900 degree dual-motor force feedback for lifelike road sensations. Its leather-wrapped wheel and stainless steel pedals ensure durability and comfort during extended gaming sessions.

The included 3-pedal set, featuring a nonlinear brake, allows for precise control over acceleration and braking. Compatible with PlayStation 3, PlayStation 4, PlayStation 5, and PC, it connects via USB 2.0 for reliable wired performance. Enhance your racing gameplay with a fully immersive setup designed for both casual and competitive gamers.

Performance tier:Enthusiast

Uses:Racing simulation, Driving games, Professional eSports, Training simulators

Overview

Engineered for the perfect driving experience with dual-motor force feedback, stainless steel paddle shifters and hand stitched leather wheel. Adjustable floor pedals let you accelerate, brake and change gears with the feel of an actual car.

Description

The Logitech G29 Racing Steering Wheel and Pedals offer an authentic driving experience with advanced features designed for serious gamers. Its dual-motor force feedback simulates the feel of the road and tires for more realistic control. The leather-wrapped wheel and stainless steel paddles provide comfort and durability, while the 3-pedal set ensures precise throttle, clutch, and brake inputs. USB connectivity guarantees low-latency performance across multiple platforms including PS3, PS4, PS5, and PC.

Ideal for racing enthusiasts, the G29 delivers immersive gameplay that enhances both casual and competitive racing sessions. Its ergonomic design and responsive controls make it suitable for long-term use without fatigue, while the high-quality materials ensure it withstands intensive gaming scenarios.

Features

Key features of the Logitech G29 Racing Wheel and Pedals include:

- 900 degree dual-motor force feedback for realistic road sensations
- Leather-wrapped steering wheel for comfort and premium feel
- Stainless steel pedals with nonlinear brake for precise control
- Compatible with PlayStation 3, PlayStation 4, PlayStation 5, and PC
- USB 2.0 wired connectivity for reliable performance
- Ergonomic design for extended gaming sessions
- Easy pedal and wheel installation with adjustable mounting options

Full throttle, Full Control

Product Specification Sheet

Relentlessly engineered for the perfect driving experience, Driving Force by Logitech G takes the latest racing games to the highest level. You simply haven't experienced racing simulation if you haven't grabbed your supercar by the wheel. Be sure to select the right wheel for your needs: G29 is for PS5, PS4, PS3 and PC

The Real Wheel

Immersive driving simulation comes to life in the details. Dual-motor force feedback makes you feel every tire slip and terrain change. Solid steel ball bearings in the wheel shaft give weight and durability. Stainless steel paddle shifters and floor pedals apply precision force. Hand-stitched leather covered wheel makes every car luxury. Helical gearing delivers smooth, quiet operation.

Dual-Motor Force Feedback

Feel your tires on every turn and type of terrain. Sense under and oversteer drifting with precision. Feel every weight shift and tire slip, and the road conditions that caused them. Powerful dual-motor force feedback realistically simulates force effects so you can respond immediately and accurately.

Motor Sport Construction

Driving Force handles the stress of racing action and is built for long-lasting reliability. Solid steel ball bearings are used in the wheel shaft. Stainless steel paddle shifters and pedals feel great under pressure. The wheel is covered in high-quality, hand-stitched leather for a premium sports car feel. Grab your car by the wheel for a more realistic, comfortable and durable racing experience.

Helical Gearing with Anti-Backlash

Exceptionally smooth, quiet steering action thanks to helical gears modeled after gears used in automotive transmissions. Anti-backlash keeps the wheel and pedals tight, maximizing your control. Driving Force Racing Wheel also features a long lasting, reliable hall-effect steering sensor, using magnetic fields to sense the position of the wheel.

Wheel-Mounted Controls

All your controls are where you can reach them. The D-Pad, buttons and paddle shifters are incorporated into the racing wheel. LED indicator lights positioned just above the center of the wheel tell you exactly when to up- or down-shift so you maintain maximum acceleration without taking your eyes off the track. A 24-point selection dial and the +/- buttons on the front of the wheel let you further fine-tune your driving preferences.

900degrees Rotation

The 900-degree lock-to-lock rotation of the Driving Force means you can turn the wheel two and a half times. It's the same degree of motion as a steering wheel inside a car.

Stay Centered

Easily see if your steering is dialed in using a visual cue within your peripheral vision. The steering wheel stripe is a visual indicator of which direction the wheel is pointing.

Adjustable Floor Pedals

Maintain a more realistic driving body position with the separate floor pedal unit with integrated throttle, brake, and clutch pedals. Driving Force lets you comfortably accelerate, brake and change gears with the feel of an actual car.

Pressure Sensitive

The nonlinear brake pedal mimics the performance of a pressure-sensitive brake system for a more responsive, accurate braking feel. For even finer control, reposition the pedal faces to make heel-toe maneuvers easier to perform.

Steady, Sturdy Base

Driving Force pedal base features rubber feet for hard surfaces and a patented retractable carpet grip system help your pedals stay right where you put them.

YOUR RIG. YOUR WAY.

Mix, match and upgrade your sim setup with a variety of Logitech G racing gear. The Racing Adapter also let's you control your brake force pressure on-the-fly.

Shift Into Overdrive

To take the racing simulation experience over the top, add the realism of a dedicated shifter. With a short-throw feel in a 6-speed "H" pattern shifter with push-down reverse, the Driving Force Shifter from Logitech G is a driving companion you won't soon forget.

PLAYSEAT TROPHY - LOGITECH G EDITION

Lightweight carbon steel frame and fully adjustable seat with Actifit material provides ultimate comfort, stability, and immersion from the starting grid to the checkered flag.

What's in the Box

- 1 x Logitech G29 Racing Steering Wheel
- 1 x 3-Pedal Set (Accelerator, Brake, Clutch)
- 1 x USB 2.0 Cable for connectivity
- User documentation and setup guide

Specifications	
Product Code	941-000112
Dimensions	WHEEL
	Rotation: 900 degrees lock-to-lock
	Hall-effect steering sensor
	Dual-Motor Force Feedback
	Overheat safeguard
	Pedals
	Nonlinear brake pedal
	Patented carpet grip system
	Textured heel grip
	Self-calibrating

PHYSICAL SPECIFICATIONS	WHEEL
	Height: 270 mm
	Width: 260 mm
	Depth: 278 mm
	Weight without cables: 2.25 kg
	Pedals
	Height: 167 mm
	Width: 428.5 mm
	Depth: 311 mm
	Weight without cables: 3.1 kg
Materials	Wheel spokes: Anodized aluminum
	Wheel cover Hand-stitched leather
	Steering shaft: Steel
	Mounting clamps: Glass-filled nylon
	Shifter paddles: Brushed stainless steel
	Pedal frames and arms: cold rolled steel
	Pedal faces: Brushed stainless steel
	Pedal piston sleeves: Polyoxymethylene thermoplastic (POM)

FAQ

Is the Logitech G29 compatible with PS5?

Yes, the Logitech G29 is fully compatible with PlayStation 5, as well as PS3, PS4, and PC systems running Windows 7 or newer.

Does the G29 support force feedback?

Yes, the G29 features 900 degree dual-motor force feedback, providing realistic road sensations and improved racing control.

What pedals are included with the G29?

The package includes a 3-pedal set with accelerator, brake, and clutch pedals. The brake pedal features nonlinear resistance for precise control.

How does the wheel connect to devices?

The Logitech G29 connects via a wired USB 2.0 interface, ensuring low-latency, reliable performance across all supported platforms.

Is the wheel comfortable for long gaming sessions?

Yes, the leather-wrapped wheel and ergonomic design provide comfort for extended play, while stainless steel paddles and durable pedals ensure long-lasting use.
