Logitech C920 1080p HD Pro Webcam

Product Overview

Logitech C920 HD Pro Webcam - 1080p Still Images, 1080p HD Video, Carl Zeiss Optics, Fluid Crystal Technology, Dual Mics, Auto Focus, Stable Mounting Clip, RightLight & RightSound Technology, Natural Audio Sound

Specifications

Features:

High-def video chat

Connect with everyone in Full HD 1080p on Skype, or in fluid HD 720p on FaceTime for Mac. Also make high-quality video calls with Google Hangouts™ and video-calling clients. Even chat with your Facebook® friends with video calling powered by Skype or Facebook Messenger.

Full HD 1080p recordings

Record vibrant, true-to-life HD 1080p video clips that capture the smallest details. Full HD is made possible by H.264, an advanced compression technology. H.264 eliminates time-consuming compression, so that you get fast, smooth uploads with less demand on your computer.

Stereo audio

Make sure everyone hears the real you. Two microphones, one on either side of the webcam, capture natural stereo audio.

Full HD glass lens

The Full HD, five-element glass lens captures razor-sharp, clear images, while the premium autofocus adjusts smoothly and precisely to provide consistent high definition.

Automatic light correction

Record clear videos even in dim light. C920 webcam automatically corrects low-light settings.

System Requirements:

Compatible with

- Windows® 7, Windows 8, Windows 10 or later
- Chrome OS™

ComX Computers
