## Specifications

**Overview:**

**C920s PRO HD WEBCAM**

Full 1080p HD video calls with privacy shutter

**Features:**

**GREAT VIDEO CALLS. PRIVACY INCLUDED.**

Make a strong impression in your video conference calls with a diagonal, fixed 78 degrees field of view to perfectly frame you and your space-plus full HD at 1080p/30fps or 720p/30fps. The five-element glass lens captures razor-sharp images and clear colors, while autofocus adjusts smoothly and precisely for consistent definition and fluid video. Flip the privacy shutter closed when you want to be off-camera.

**DUAL-MIC - STEREO AUDIO**

Two microphones, one on either side of the camera, capture more realistic sound from a broader range of angles-so your voice comes through sounding natural and clear in conference calls.

**ALL-IN-ONE CONTENT CREATION WITH CAPTURE**

Easily create, record, and customize settings with our Capture app. A suite of features lets you fully edit and customize your stream, so you can add transitions and text overlays, customize webcam settings, and more.

**OPTIMAL LIGHTING**

Equipped with automatic HD light correction, the C920s uses Logitechs RightLight 2 technology to adjust to your lighting conditions, producing bright, contrasted images, even if youre in a dim setting.

**HD GLASS LENS WITH PRIVACY COVER**

The full HD five-element glass lens and premium autofocus capture razor-sharp, clear images, adjusting smoothly and precisely to provide consistent high definition in conference calls. A convenient privacy cover protects the lens-and your privacy.
