Performance tier: Entry-level

Uses: Music playback, video watching, gaming, computer audio, TV audio, smartphone audio

Overview:

Z207 BLUETOOTH COMPUTER SPEAKERS
Stereo computer speakers with room-filling sound plus Bluetooth.

Let the fun begin. With compact design and rich, room-filling audio, Z207 fits easily into your deskspace and is ideal for watching videos, gaming, or listening to music. Connect up to two devices via Bluetooth - then play, pause, and seamlessly switch between them with Logitech Easy-Switch.

Description:

The Logitech Z207 Bluetooth Computer Speakers provide convenient stereo audio in a compact desktop design. With 10 W peak power and 5 W RMS output, the speakers deliver rich, room-filling sound for music, movies, gaming and everyday computer use. Bluetooth connectivity makes it easy to connect compatible devices wirelessly, while the 3.5 mm input provides a simple wired connection when required.

The Z207 also makes switching between devices straightforward. Up to two Bluetooth devices can be paired at the same time, allowing you to move between sources using Logitech Easy-Switch. A headphone jack is positioned on the right speaker for convenient private listening, while the nearby controls provide quick access to power, volume and Bluetooth pairing.

Features:

Rich Wireless Stereo Sound for Your Desktop
The Logitech Z207 is designed to provide full-range stereo audio without taking up excessive desk space. Each speaker uses an active powered driver for audio output and a passive radiator to help extend bass response. With 10 W peak power and 5 W RMS, the system is well suited to everyday entertainment and computer audio.

Its compact footprint makes the Z207 a practical choice for home offices, study areas, bedrooms and gaming desks where space is limited but built-in monitor speakers are not enough.

Bluetooth Speaker System with Easy-Switch
Pair up to two Bluetooth devices with the Z207 and switch between them using Logitech Easy-Switch. This makes it convenient to use the speakers with different devices without repeatedly disconnecting and reconnecting them.

For example, you can connect a computer wirelessly and switch to another compatible Bluetooth device when you want to play music or other audio. A wired device can also be connected through the 3.5 mm input.

Flexible Connectivity for Multiple Devices
The Logitech Z207 offers several connection options, making it suitable for a range of desktop and personal audio setups.

- Bluetooth: Connect up to two compatible Bluetooth devices and switch between them using Easy-Switch.
- 3.5 mm input: Connect a compatible computer, laptop, tablet or other audio source using a standard 3.5 mm connection.
- Headphone jack: Connect headphones directly to the right speaker for convenient private listening.

Simple Controls on the Right Speaker
The main controls are positioned on the right speaker for easy access. The control knob can be used to switch the speakers on or off and adjust the volume, while the Bluetooth pairing button makes wireless setup straightforward. The 3.5 mm headphone connection is also conveniently located on the right speaker.

Compact Computer Speakers for Everyday Entertainment
The Z207 is designed to deliver useful desktop audio without dominating your workspace. Its compact construction makes it easy to position alongside a monitor, laptop or other computer equipment, while the clean design can fit naturally into different desktop environments.

Whether you are watching videos, listening to music, gaming or simply improving the audio from your computer, these Logitech Bluetooth speakers offer a practical combination of wireless convenience, stereo sound and simple controls.

- Headphone jack: 1
- Wireless device support: Up to two Bluetooth devices
- Easy-Switch: Yes
- Part Number / SKU: 980-001292

Who Are the Logitech Z207 Speakers For

The Logitech Z207 is a good fit for users who want compact computer speakers with Bluetooth connectivity and more flexibility than basic wired desktop speakers. They are suitable for home and office desktops, casual gaming, music playback, video streaming and general everyday computer use.

The combination of Bluetooth, a 3.5 mm input and a headphone jack gives the Z207 flexibility for both wireless and wired setups, while the 5 W RMS stereo output provides a noticeable upgrade for users who want dedicated desktop speakers.

Logitech Z207 980-001292

The Logitech Z207 Bluetooth Computer Speakers combine compact desktop styling, stereo sound and convenient multi-device connectivity in one easy-to-use speaker system. With 10 W peak power, 5 W RMS output, Bluetooth support, Easy-Switch, a 3.5 mm input and a headphone jack, the Z207 is a versatile choice for everyday computer audio.
