Logitech G321 LightSpeed 2.4GHz + Bluetooth 5.2 Wireless Gaming Headset

Product Overview

Logitech G321 LightSpeed 2.4GHz + Bluetooth 5.2 Wireless Gaming Headset, 40 mm Driver, Omni-Directional Microphone pick-up pattern, 20 hours Battery Life, USB-C charging Port, USB-C to USB Type-A charging cable, 981-001563

Specifications

Overview Summary:

The Logitech G321 LIGHTSPEED wireless gaming headset is built for gamers who want reliable wireless audio, clear voice communication and lightweight comfort for long sessions. With 2.4GHz LIGHTSPEED, Bluetooth 5.2 connectivity, 40mm drivers and over 20 hours of battery life, it is a practical choice for PC, PS5 and Nintendo Switch users looking to upgrade. Buy now and enjoy dependable performance for competitive and casual gaming.

Designed for everyday gaming and entertainment, the G321 combines memory foam comfort, a flip-to-mute microphone and USB-C charging in a streamlined wireless headset. Whether you need a headset for multiplayer chat, immersive game sound or mobile Bluetooth use, this model delivers strong all-round value. Shop now for fast delivery across South Africa.

Performance tier:Mid-range wireless gaming

Uses:PC gaming, PS5 gaming, Nintendo Switch gaming, multiplayer voice chat, wireless music listening, mobile gaming, online communication

Overview:

The Logitech G321 LIGHTSPEED wireless gaming headset is engineered to deliver reliable performance, low-latency audio, and long-session comfort without complicated setup. With dual wireless connectivity via 2.4 GHz LIGHTSPEED and Bluetooth 5.2, it adapts easily between gaming platforms and mobile devices. Its lightweight 210 g build, combined with memory foam cushioning and breathable fabric, supports extended use while maintaining a stable and comfortable fit. The headset also integrates a responsive flip-to-mute microphone and over 20 hours of battery life, making it suitable for both competitive and casual gaming environments.

Description:

The Logitech G321 LIGHTSPEED gaming headset combines wireless flexibility, immersive sound reproduction, and ergonomic design in a streamlined package. Equipped with 40 mm drivers, it delivers balanced audio across highs, mids, and bass, ensuring clear in-game detail and communication. Dual connectivity modes allow seamless switching between LIGHTSPEED wireless for gaming and Bluetooth for mobile use. Its lightweight construction, memory foam earcups, and padded headband provide sustained comfort, while the flip-to-mute microphone ensures precise voice capture. With extended battery life and USB-C charging, it is built for uninterrupted gameplay and everyday versatility.

Features:

Seamless Wireless and Bluetooth Switching

Switching between devices is straightforward. Use Bluetooth for mobile gaming, voice chat, or music, then transition back to LIGHTSPEED wireless with a single button press for low-latency gaming performance. This dual-mode capability reduces the need for multiple headsets across devices.

Immersive Audio Performance

The 40 mm drivers are tuned to provide a wide frequency range with clear highs, defined mids, and consistent bass output. This allows for accurate positional awareness in games while maintaining clarity for dialogue and ambient sound layers.

Comfort Designed for Long Sessions

The headset prioritizes wearability with a combination of lightweight construction and adaptive materials:

- 21 mm memory foam earcups create a secure seal while maintaining comfort
- 15 mm padded headband distributes weight evenly across the head

- High elasticity knit fabric enhances breathability and adapts to different head shapes

Clear Communication with Flip-to-Mute Mic

The integrated omni-directional microphone supports up to 16 kHz sampling, ensuring consistent voice clarity. The flip-to-mute function provides immediate control over communication during gameplay or calls.

Battery Efficiency and Charging

Extended battery performance supports prolonged gaming sessions without interruption:

- More than 20 hours of continuous use under typical conditions
- USB-C charging port for modern compatibility
- USB-C to USB-A cable included for flexible charging options

Core Technical Details

Key specifications are structured for quick reference:

- Driver size: 40 mm
- Frequency response: 20 Hz to 20 kHz
- Microphone pattern: Omni-directional
- Sampling rate: Up to 16 bit / 16 kHz
- Wireless connectivity: 2.4 GHz LIGHTSPEED and Bluetooth 5.2
- Wireless range: Up to 10 meters line of sight

Physical Profile and Build

- Height: 185.6 mm
- Width: 202.8 mm
- Depth: 44.7 mm
- Weight: 210 g

Platform Compatibility

The headset is compatible across multiple systems, improving usability across gaming setups:

- PC and macOS via USB LIGHTSPEED connection
- PlayStation 5
- Nintendo Switch
- Bluetooth-enabled devices supporting version 5.2

Sustainability Considerations

The product incorporates environmentally conscious materials and packaging:

- Paper packaging sourced from FSC-certified and controlled origins
- Minimum 28 percent post-consumer recycled plastic in applicable components

The Logitech G321 LIGHTSPEED wireless gaming headset, part number 981-001563, is designed to balance performance, comfort, and connectivity in a single device, making it suitable for users who require flexibility across platforms without compromising audio quality or usability.
