Astrum SV105 HD Male to Male VGA Monitor 5.0m Cable

Product Overview

Astrum SV105 HD Male to Male VGA Monitor 5.0m Cable; HD 15-pin male to male; Full HD support; ferrite cores; double shielded braid; silver plated connectors; PVC jacket; 8.0mm cable diameter; black

Specifications

About this product

The Astrum A34005-B SV105 HD Male to Male VGA Monitor Cable is a high quality 5.0m VGA display cable designed for reliable analog video connections between computers, monitors, projectors and HDTVs with VGA ports. Featuring HD 15-pin male connectors, ferrite cores and double shielding, it helps deliver clear Full HD video with reduced interference. Buy now from our website for a dependable display connection and quick delivery in South Africa.

Overview Summary

Astrum A34005-B SV105 HD Male to Male VGA Monitor Cable 5.0m

The Astrum SV105 is a premium quality VGA monitor cable engineered to provide stable analog video transmission over a generous 5.0 metre length. Its HD 15-pin male to male connectors make it suitable for connecting desktop computers, laptops with VGA output, monitors, projectors and compatible display devices.

Designed with ferrite cores, double shielding and a tinned copper braid, the cable helps minimise electromagnetic and radio frequency interference while reducing ghosting and signal distortion. Its durable PVC jacket and secure screw-in connectors provide a dependable connection for both home and professional installations.

Performance tier:Premium VGA Display Cable

Uses:Desktop monitors, projectors, HDTVs with VGA input, conference rooms, classrooms, office displays, legacy computer systems

Overview

High performance VGA 15pin male to male display monitor cable, full HD resolution, screw-in design and ferrite cores. Ideal for monitors, HDTVs, Projectors & more.

Description

The Astrum A34005-B SV105 is designed for dependable analog video connectivity where VGA interfaces are still widely used. Its 5.0 metre length provides installation flexibility while maintaining reliable signal transmission for monitors, projectors and compatible display equipment.

The cable features HD 15-pin male connectors with secure screw fasteners that help prevent accidental disconnection during use. Integrated ferrite cores reduce electromagnetic interference, while the double shielded construction with tinned copper braid helps minimise signal degradation and ghosting for improved image clarity.

Whether used in offices, schools, conference rooms or home workstations, the SV105 provides a durable solution for connecting VGA enabled equipment where stable video performance and long cable runs are required.

Features

The Astrum SV105 combines durable construction with enhanced signal protection for dependable VGA connectivity.

- 5.0 metre VGA monitor cable
- HD 15-pin male to male connectors
- Supports Full HD video resolution
- Ferrite cores help reduce EMI and RFI interference
- Double shielding with tinned copper braid
- Helps eliminate ghosting and signal distortion
- Composite coaxial shielded cable construction
- PVC jacket for durability
- Secure screw-in connector design
- Suitable for monitors, projectors and HDTVs with VGA input

High-Performance Display Cable

Experience superior video quality with our VGA 15-pin male to male display monitor cable, delivering full HD resolution for crisp and clear visuals.

Secure Connection

The screw-in design ensures a secure and stable connection between your devices, minimizing the risk of disconnection or signal loss during use.

Enhanced Signal Quality

Equipped with ferrite cores, this cable effectively reduces electromagnetic interference, providing a stable and reliable signal transmission for optimal display performance.

Versatile Compatibility

Ideal for monitors, HDTVs, projectors, and more, this cable offers versatile compatibility, making it suitable for a wide range of display devices and applications.

Durable Construction

Built to last, our display monitor cable is constructed with high-quality materials, ensuring durability and longevity to withstand daily use and frequent plugging and unplugging.

What's in the Box

- 1 x Astrum SV105 HD Male to Male VGA Monitor Cable 5.0m

Specifications

- Brand: Astrum

ComX Computers

Product Specification Sheet

- Model: A34005-B
- Product: SV105 VGA Monitor Cable
- Cable type: VGA monitor cable
- Length: 5.0m
- Connector 1: HD 15-pin male
- Connector 2: HD 15-pin male
- Connector finish: Silver plated
- Supported resolution: Full HD
- Shielding: Double shielded braid
- Ferrite cores: Yes
- Conductor: BC
- Cable outer diameter: 8.0mm
- Cable jacket: PVC
- Colour: Black

FAQ

What devices can this VGA cable connect?

The Astrum SV105 is compatible with devices that feature a standard HD 15-pin VGA connector. It can connect desktop computers, laptops with VGA output, monitors, projectors and HDTVs equipped with VGA ports.

Does this cable support Full HD resolution?

Yes. The cable is designed to support Full HD video transmission over VGA compatible devices. Image quality depends on the connected equipment and supported display resolution.

Why does this cable include ferrite cores?

Ferrite cores help suppress electromagnetic and radio frequency interference. This helps improve signal stability and reduce ghosting or display distortion.

Is the cable suitable for office and classroom installations?

Yes. The 5.0 metre length provides flexibility for longer equipment connections. It is well suited for offices, schools, conference rooms, presentations and workstation setups.

Does the cable use locking connectors?

Yes. The HD 15-pin connectors include screw fasteners. These provide a secure connection and help prevent accidental disconnection during use.
