Specifications

About this product

The Astrum A38064-Q DA640 USB-C to DisplayPort Adapter provides a simple and reliable way to connect a USB-C or Thunderbolt 3 enabled laptop, tablet, or compatible smartphone to a DisplayPort monitor, projector, or display. Supporting up to 4K Ultra HD video output with audio pass-through and plug-and-play operation, this compact adapter is ideal for professional workstations, presentations, and multi-monitor setups. Buy now from our website for quick delivery in South Africa.

Overview Summary

Astrum A38064-Q DA640 4K Ultra HD USB-C to DisplayPort Adapter

The Astrum DA640 is designed to connect modern USB-C and Thunderbolt 3 enabled devices to DisplayPort displays with a dependable wired connection. It supports Ultra HD video output, making it suitable for productivity, presentations, content creation, and everyday desktop expansion.

ComX Computers

Product Specification Sheet

Its lightweight and portable design makes it easy to carry between home, office, and travel. With plug-and-play functionality, there are no drivers or software to install, while support for both video and audio over DisplayPort provides a clean and convenient single-adapter solution.

Performance tier:Mid-range productivity and multimedia adapter

Uses:External monitor connection, multi-monitor workstation, business presentations, home office, digital signage, video playback, productivity

Description

The Astrum A38064-Q DA640 enables compatible USB-C and Thunderbolt 3 equipped devices to connect directly to DisplayPort monitors, projectors, and displays. It delivers high quality digital video together with DisplayPort audio output, making it suitable for professional and personal environments.

Supporting resolutions up to 3840 x 2160 at 30Hz, the adapter is well suited for office productivity, presentations, streaming media, and extending or mirroring a desktop workspace. Its compact construction allows it to fit easily into a laptop bag or travel case while remaining durable enough for everyday use.

With plug-and-play functionality, installation is quick and straightforward without requiring additional software or drivers on supported systems.

FAQ

Does the Astrum DA640 support 4K displays?

Yes. The adapter supports resolutions up to 3840 x 2160 at 30Hz on compatible devices and displays.

Can this adapter connect a USB-C laptop to a DisplayPort monitor?

Yes. It is designed to connect compatible USB-C or Thunderbolt 3 devices to DisplayPort monitors, projectors, and displays.

Does the adapter require drivers?

No. The DA640 supports plug-and-play operation on compatible devices, so no additional software or drivers are required.

Does it support audio?

Yes. The adapter supports both digital video and audio transmission through the DisplayPort connection.

Will this work with every USB-C port?

No. Your USB-C port must support DisplayPort Alternate Mode or Thunderbolt 3 video output for the adapter to function correctly.
