

AC-FIB-PL-SC-1M-AS

AccoNet Patch Lead SC/APC - SC/APC Simplex 1m Single Mode

Product Overview

AccoNet Patch Lead SC/APC - SC/APC Simplex 1m Single Mode, G.652D, 2.0mm, LSZH

Specifications

Overview Summary:

The Acconet SC/APC to SC/APC simplex patch lead is a reliable choice for South African buyers looking to enhance their network performance. With its 1-meter length and G.652D single-mode fiber, this cable ensures low signal loss and consistent high-speed data transmission. The 2.0mm LSZH jacket provides safety and durability, making it ideal for indoor installations in homes, offices, and data centers. Buy now to secure a dependable connection for your networking setup.

Shop now for a compact and lightweight patch lead that simplifies installation and maintains long-term performance for professional networks. Its SC/APC connectors ensure stable connections with minimal reflection, supporting critical applications in telecom and enterprise systems.

Performance tier:High

Uses:Networking, telecom, data centers, enterprise connections, indoor fiber installations

Overview:

Acconet Patch Lead SC/APC to SC/APC Simplex 1m Single Mode

Acconet offers a reliable SC/APC to SC/APC simplex patch lead designed for seamless single-mode fiber connections. This 1-meter cable is ideal for high-performance networking environments, ensuring consistent signal quality and minimal loss for data transmission.

This patch lead comes with a G.652D single-mode fiber, a 2.0mm diameter, and a low-smoke zero halogen (LSZH) jacket, making it safe for indoor use while reducing environmental impact. Its compact design and lightweight construction make it easy to handle and install in tight spaces, providing efficient and durable connectivity for network systems.

Features:

ComX Computers

Product Specification Sheet

High-Quality Single Mode Fiber Cable

Engineered with G.652D fiber, this patch lead supports high-speed data transmission over long distances with low attenuation. The SC/APC connectors on both ends ensure stable connections with minimal signal reflection, making it suitable for critical applications in telecom, data centers, and enterprise networks.

Durable and Safe Design

The 2.0mm LSZH jacket enhances safety by minimizing toxic smoke in case of fire. Its robust yet flexible construction ensures durability while allowing easy routing through racks, panels, or conduits without damaging the fiber.

Compact and Lightweight

- Length: 1 meter
- Width: 19 cm
- Height: 1 cm
- Weight: 10 grams

Reliable Connectivity for Professional Networks

Whether setting up new network infrastructure or upgrading existing systems, the Acconet SC/APC to SC/APC patch lead provides stable, high-quality connections with minimal maintenance. Its design supports efficient installation while ensuring long-term performance.
