Overview:

The Acer Extensa EX215-57 is a 15.6-inch business and productivity laptop designed for smooth everyday performance, reliable multitasking, and efficient workflow management. Built with 13th Gen Intel Core technology and fast DDR5 memory, it delivers a balanced combination of speed, responsiveness, and power efficiency for office tasks, study, and general professional use.

With a Full HD display, modern connectivity options, and Windows 11 Pro pre-installed, this laptop is suited for users who need stable performance in a portable and practical form factor. It also benefits from a lightweight design for its class, making it suitable for hybrid or mobile working environments.

Acer Extensa 15 EX215-57 performance for business and everyday computing

Powered by the Intel Core 5 120U processor based on the Raptor Lake architecture, this laptop is built for efficient multitasking and responsive computing. The processor features a hybrid core design with performance and efficiency cores, supporting smooth handling of office applications, web browsing, and light content creation.

Combined with 16GB DDR5-4800 memory, the system provides faster data access and improved multitasking compared to previous generation DDR4 systems. Storage is handled by a 512GB PCIe NVMe SSD, ensuring fast boot times, quick file access, and responsive application loading.

Features:

15.6 inch Full HD display for clear everyday viewing

The Acer Extensa EX215-57 features a 15.6 inch Full HD (1920 x 1080) ComfyView LED-backlit display. This screen delivers clear visuals with reduced glare, making it suitable for long working sessions in office environments or home setups.

The narrow bezel design helps maximise screen space while maintaining a compact overall footprint. Intel integrated graphics support smooth display output for standard productivity tasks and media playback.

Connectivity and port selection for flexible use

This laptop includes a wide range of connectivity options to support modern workflows. It comes equipped with Wi-Fi 6 for faster and more stable wireless connections, along with Bluetooth for peripheral pairing.

Wired connectivity is also supported through Gigabit Ethernet for reliable network access. Physical ports include USB Type-A ports, a USB Type-C port, and an HDMI output, allowing connection to external displays, storage devices, and accessories.

Design, usability and everyday practicality

The Acer Extensa 15 is designed with business and education users in mind. It includes a full-size keyboard with numeric keypad, making it practical for data entry, spreadsheets, and administrative work.

A built-in webcam supports video conferencing and online meetings, while the lightweight build of approximately 1.8 kg ensures easier portability between workspaces. The overall design focuses on practicality and durability for daily use.

Memory, storage and upgrade potential

The system supports up to 64GB of memory across two slots, offering future upgrade flexibility for more demanding workloads. With DDR5 memory support, users benefit from improved bandwidth and efficiency.

The M.2 SSD slot ensures fast PCIe storage performance, and the configuration is suitable for users who need quick access to files and applications without delays.
