Overview Summary

AENO HB3 1000W Hand Blender and Food Processor Set

The AENO HB3 Hand Blender is designed to handle a wide range of everyday kitchen preparation tasks with one versatile appliance. Its 1000W motor and smooth speed control allow you to adjust blending power by varying the pressure on the

control button. The LED speed indicator provides a visual indication of operation, while the ergonomic design supports comfortable handling.

The stainless steel blending rod and four stainless steel blades support efficient blending and chopping. The included 0.5L chopper is suitable for smaller ingredients such as herbs, onions, garlic and nuts, while the 2L food processor provides additional capacity for chopping, slicing and shredding. A whisk attachment and 0.6L measuring jar complete this practical kitchen preparation set.

Performance tier:Multifunctional domestic kitchen appliance

Uses:Blending soups, preparing sauces, making purees, chopping herbs, chopping nuts, processing vegetables, slicing ingredients, shredding food, whisking eggs, whipping cream, mixing ingredients

Description

The AENO HB3 Hand Blender is a multifunctional kitchen appliance designed to make everyday food preparation more convenient. With a 1000W motor and smooth speed control, it gives you control over blending intensity for a variety of ingredients and recipes. The one-finger control system adjusts power according to the pressure applied to the button, allowing you to manage the consistency of your mixtures.

The stainless steel blending rod is durable and corrosion resistant, while the four sharp stainless steel blades are designed for blending and chopping ingredients. Use the hand blender to prepare soups, sauces, purees and other blended recipes. Its ergonomic design supports a comfortable grip, and the LED indicator helps you monitor the selected operating speed.

The included 0.5L chopper is suitable for finely chopping smaller quantities of ingredients, including onions, garlic, herbs and nuts. For larger food preparation tasks, the 2L food processor supports chopping and mixing with its S-shaped blade, as well as grating and shredding with the supplied processing accessories.

The whisk attachment is designed for whipping, aerating and mixing ingredients, making it useful for eggs, cream and baking preparations. The 0.6L measuring jar provides a convenient container for measuring ingredients and preparing smaller mixtures. The easy-click attachment system helps make changing accessories straightforward.

Combining blending, chopping, food processing and whisking functions in one set, the AENO HB3 is suitable for home cooks who want a versatile appliance for everyday meal preparation and baking tasks.

Features

The AENO HB3 combines multiple food preparation functions in one compact appliance, helping reduce the need for separate kitchen tools.

- 1000W motor: Provides power for everyday blending, chopping and food processing tasks.
- Smooth speed control: Allows blending power to be adjusted through pressure on the control button.
- LED speed indication: Provides a visual indication of the operating speed.
- Four stainless steel blades: Support effective blending and chopping of suitable ingredients.
- Stainless steel blending rod: Offers a durable, corrosion-resistant blending surface.
- Ergonomic design: Supports comfortable handling during food preparation.
- Easy-click attachment system: Makes it convenient to attach and detach compatible accessories.
- 0.5L chopper: Suitable for chopping smaller quantities of herbs, nuts, onions, garlic and other ingredients.
- 2L food processor: Provides additional capacity for chopping, mixing, slicing and shredding ingredients.
- Food processor blades and accessories: The supplied S-shaped blade supports chopping and mixing, while the grating and shredding blade supports additional preparation tasks.
- Whisk attachment: Helps whip, aerate and mix ingredients for baking and cooking.
- 0.6L measuring jar: Provides a convenient container for measuring and preparing ingredients.
- Versatile kitchen use: Suitable for preparing soups, sauces, purees, chopped ingredients and baking mixtures.
