tamper button triggers when the enclosure is opened or broken, and the accelerometer triggers when somebody's attempting to move or dismantle the siren.

The buzzer can be set to generate sound from 85 to 113 dB for an adjustable period from 3 seconds to 3 minutes, or it can be completely silent and respond only with LED indication. StreetSirens hermetically sealed body has been rated IP54 level of ingress protection.

Hassle-free installation and setup

Ready to operate straight out the box: the battery is already installed, and there is no need to disassemble the siren. It can be connected to the hub in the mobile or desktop app with one click. The mounting process takes just a few minutes with SmartBracket mounting panel.
