About this product

The Armageddon ARGB Kit 6000 Pro Black Cooling 12cm Fan Kit delivers vibrant addressable RGB lighting with daisy chained connectivity and quiet 120mm cooling fans for enhanced PC airflow and style. Buy this ARGB fan kit from our website for quick delivery in South Africa and upgrade your system cooling and lighting.

Overview Summary

Armageddon ARGB Kit 6000 Pro Black Cooling 12cm Fan Kit is a complete set of ARGB case fans designed to improve airflow and add customizable lighting to your desktop PC. These fans feature master-slave connectivity that syncs lighting effects across all included units and supports daisy chaining up to eight fans to help reduce cable clutter and simplify installation. Built with an alloy hydraulic bearing and optimized blade design, this kit delivers effective cooling and reliable operation.

This kit offers addressable RGB lighting effects such as static colours, colour cycles and breathing modes that can be tailored to your build aesthetics and motherboard ARGB control. With a noise level of just 21.3 dBA and smooth spinning up to 1200 RPM, the Armageddon ARGB Kit 6000 Pro balances cooling performance and quiet operation for everyday use or gaming systems. Perfect for users who want to enhance thermal management and visual appeal in one solution.

Performance tier:Mid-range case cooling

Uses:PC cooling, lighting enhancement, system airflow improvement, custom build aesthetics

Description

The Armageddon ARGB Kit 6000 Pro Black Cooling 12cm Fan Kit is engineered for PC builders and gamers seeking efficient cooling with eye catching lighting. Each fan in the kit measures 120 x 120 x 25mm and includes a master fan that controls lighting and synchronizes effects with the connected slave fans. The kit uses addressable RGB LEDs that allow you to customize lighting effects such as static colour displays, colour cycles, and breathing patterns to match your build theme or mood.

ComX Computers

Product Specification Sheet

Designed for easy installation, these fans support daisy chaining so that up to eight fans can be connected in series to one header, making cable management neater and setup simpler. The alloy hydraulic bearing and nine blade design provide consistent airflow of approximately 33.84 CFM at speeds up to 1200 RPM while maintaining a noise level of around 21.3 dBA, making them suitable for everyday computing and gaming setups. With a durable PBT construction and large 4 pin connectors, this cooling kit delivers both performance and longevity.

Features

The Armaggeddon ARGB Kit 6000 Pro Black Cooling 12cm Fan Kit combines airflow performance and dynamic lighting to enhance your PC build.

- Addressable RGB lighting lets you personalise lighting effects with motherboard control or included controller.
- Master-slave fan synchronization provides uniform lighting patterns across all connected fans.
- Daisy chain support allows up to eight fans to be connected in series, simplifying cabling and reducing clutter.
- Quiet operation at around 21.3 dBA helps maintain a calm computing environment.
- Alloy hydraulic bearing boosts durability and smooth fan rotation for consistent cooling performance.
- Optimized blade design enhances airflow at typical PC operating speeds of 1200 RPM.

What's in the Box

- 1 x ARGB Master Fan (120mm)
- 3 x ARGB Slave Fans (120mm)
- Mounting Screws

Specifications

- Fan Size: 120 x 120 x 25mm
- Airflow: ~33.84 CFM
- Noise Level: ~21.3 dBA
- Speed: 1200 +/- 300 RPM
- Bearing Type: Alloy hydraulic
- Blade Count: 9 blades
- RGB Type: Addressable RGB (ARGB)
- Connector Type: Large 4 pin
- Construction Material: PBT

FAQ

What is the Armaggeddon ARGB Kit 6000 Pro Black Cooling 12cm Fan Kit?

This is a set of four 120mm ARGB case fans designed to enhance PC cooling and add customizable addressable RGB lighting to your system build.

Will these fans work with my motherboard ARGB software?

Yes, the addressable RGB lighting is compatible with most modern ARGB headers on motherboards, allowing control through software like Aura, Mystic Light, or similar if supported by your board.

How many fans can be connected together in this kit?

The kit supports daisy chaining, allowing up to eight compatible fans to be connected in series to a single ARGB header for synchronized lighting and simplified cabling.

Are these fans suitable for gaming and everyday use?

ComX Computers

Product Specification Sheet

Yes, with a balance of airflow, low noise and ARGB lighting, the kit is suitable for both everyday computing and gaming PC builds that benefit from enhanced cooling and visual effects.

Can these fans be installed in any PC case?

As long as your PC case supports 120mm fans and has an ARGB header or controller, these fans can be installed to improve cooling and lighting aesthetics.
