

# ASUS ROG RYUJIN III 360 ARGB EXTREME WHT

Asus ROG Ryujin III 360 ARGB Extreme CPU Water Cooler

## Product Overview

Asus ROG Ryujin III 360 ARGB Extreme CPU Water Cooler, Copper Block material (CPU plate), Aluminum radiator material, 400 mm sleeved rubber tube, ROG Magnetic daisy-chainable fan, 3x 120mm fans, 89.73 CFM Air Flow, PWM / DC control mode, 3.5" full Colour LCD Display, Aura Sync support, Compatibility - AMD AM5 / AM4 / Intel LGA 1851 / 1700 / 1200 / 115x

## Specifications

### Overview Summary:

Upgrade your PC with the ASUS ROG Ryujin III 360 ARGB Extreme White Edition, a premium all-in-one liquid CPU cooler built for demanding gaming and workstation systems. Featuring a high-performance 360mm radiator, copper cold plate, magnetic daisy-chainable ARGB fans, and a vibrant 3.5-inch full-colour LCD display, it delivers efficient cooling while adding a premium look to your build.

Designed for the latest AMD AM5/AM4 and Intel LGA 1851/1700 platforms, this cooler offers excellent thermal performance, simple cable management, and extensive system customisation. Buy now and complete your high-end PC with reliable liquid cooling engineered for enthusiasts. Shop now for fast, efficient CPU cooling.

**Performance tier:**Enthusiast / Flagship

**Uses:**High-end gaming PCs, content creation workstations, overclocking, desktop CPU cooling, custom RGB PC builds, professional computing

### Overview:

#### High-Performance Liquid Cooling for AMD and Intel Systems

The ASUS ROG RYUJIN III 360 ARGB Extreme White Edition is a premium 360 mm all-in-one CPU liquid cooler built for enthusiasts, gamers, content creators, and overclockers who demand exceptional thermal performance. Equipped with the latest Asetek Emma Gen8 V2 pump, upgraded 30 mm magnetic ARGB fans, and a vibrant 3.5-inch full-color LCD display, this cooler is engineered to keep high-end AMD Ryzen and Intel Core Ultra processors running at peak performance while adding a premium visual centerpiece to any PC build.

### Description:

Designed for modern high-performance systems, the ASUS ROG RYUJIN III 360 ARGB Extreme White Edition combines advanced cooling technology with intelligent customization. Its enhanced pump, larger embedded VRM cooling fan, magnetic daisy-chainable ARGB fans, and customizable LCD display work together to deliver efficient heat dissipation, simplified installation, and extensive personalization. Whether you are gaming, streaming, rendering, or pushing your CPU with demanding workloads, this cooler offers reliable cooling and impressive aesthetics.

### Features:

#### Advanced Cooling Performance

At the heart of the cooler is the latest Asetek Emma Gen8 V2 pump paired with a high-efficiency copper cold plate for rapid heat transfer. ASUS has further optimized the design for the latest Intel Core Ultra Series 2 processors, helping reduce CPU temperatures by up to 7.5 percent compared to the previous ROG Ryujin III 360 ARGB model. Support for AMD AM5 processors also makes it an excellent choice for current Ryzen platforms.

The integrated VRM fan improves airflow around the motherboard's power delivery components, helping lower VRM temperatures during heavy workloads for greater long-term stability.

#### Enhanced Magnetic ARGB Fans

The included 120 mm ROG ARGB fans have been redesigned for greater cooling efficiency while maintaining low noise levels.

Key highlights include:

- Three 120 mm magnetic da daisy-chainable ARGB fans

---

## ComX Computers

### Product Specification Sheet

- Increased 30 mm fan thickness for improved airflow and static pressure
- Three-phase six-pole motor for smoother and quieter operation
- Fluid Dynamic Bearings for reduced noise and extended lifespan
- Nine-blade fan design for increased airflow
- Single-cable magnetic connection for cleaner cable management

The magnetic connection system allows the three fans to snap together, reducing cable clutter and making installation significantly easier.

### Integrated VRM Cooling

A built-in Axial-tech VRM fan directs airflow toward motherboard power components to improve cooling during demanding workloads.

Benefits include:

- Improved motherboard VRM temperatures
- Increased stability under sustained CPU loads
- Ideal for gaming, overclocking, and workstation applications

### Premium 3.5-Inch Full-Color LCD Display

The large integrated IPS display transforms the pump housing into an interactive system monitoring hub.

Display capabilities include:

- 3.5-inch IPS LCD panel
- 480p resolution
- 60 Hz refresh rate
- 24-bit full-color output

The display can show:

- CPU temperatures
- Clock speeds
- Voltages
- Fan speeds
- Water flow information
- Custom wallpapers
- Personal images
- Animated GIFs

This makes it easy to monitor system health while giving your build a personalized appearance.

### Extensive Customization Options

The ASUS software ecosystem allows users to personalize nearly every aspect of the cooler.

Customization options include:

- Aura Sync RGB lighting
- Custom JPEG backgrounds
- Animated GIF support
- Giphy integration
- Live AIDA64 system monitoring
- Pump and fan speed control through ASUS software

These options let you create a system that matches your preferred style while keeping critical performance information easily

accessible.

Wide Platform Compatibility

With generous 400 mm sleeved tubing, the cooler fits a wide range of modern PC cases while supporting the latest desktop processor platforms.

Supported sockets include:

- AMD AM5
- AMD AM4
- Intel LGA 1851
- Intel LGA 1700
- Intel LGA 1200
- Intel LGA 115x

Technical Details

- Part Number / SKU: ASUS ROG RYUJIN III 360 ARGB EXTREME WHT
- Cooler type: 360 mm All-in-One CPU Liquid Cooler
- Pump: Asetek Emma Gen8 V2
- Cold plate material: Copper
- Radiator material: Aluminum
- Tubing length: 400 mm sleeved rubber tubing
- Fans: 3 x 120 mm ROG Magnetic ARGB
- Maximum airflow: 89.73 CFM
- Fan control: PWM and DC
- Display: 3.5-inch IPS LCD
- Display resolution: 480p
- Refresh rate: 60 Hz
- RGB lighting: Aura Sync compatible

Ideal Applications

The ASUS ROG RYUJIN III 360 ARGB Extreme White Edition is well suited for users building premium gaming PCs, creator workstations, and enthusiast systems with today's latest AMD Ryzen and Intel Core Ultra processors. Its combination of high-end cooling, intelligent monitoring, premium aesthetics, and simplified cable management makes it an excellent centerpiece for modern white-themed PC builds.

When purchasing or upgrading your cooling solution, look for Part Number ASUS ROG RYUJIN III 360 ARGB EXTREME WHT to ensure you receive this specific White Edition model.
