Overview Summary

Axtel AX-FHD Full HD 1080p Professional Webcam

The Axtel AX-FHD Webcam is a compact and professional video conferencing solution built for modern workspaces, remote learning, and online meetings. With Full HD 1080p resolution at 30 frames per second, it delivers clear and detailed visuals supported by auto focus and automatic white balance for consistent image quality. The wide angle lens ensures optimal framing for individual or small group use.

ComX Computers

Product Specification Sheet

Equipped with a built-in digital microphone featuring noise reduction, this webcam enhances voice clarity during calls, presentations, and streaming. Its plug and play USB connection allows easy setup without additional drivers, making it compatible with major operating systems and conferencing platforms.

Performance tier:Mid-range professional

Uses:video conferencing, remote work, online meetings, streaming, online classes

Overview

The Axtel AX-FHD Webcam is a top shelf professional webcam designed to allow high quality video calls no matter the type of work environment.

Description

The Axtel AX-FHD Webcam is engineered to provide high quality video communication for professionals, students, and content creators. Its Full HD 1080p resolution ensures sharp visuals, while the integrated auto focus system keeps subjects clear and well defined. Automatic white balance and low light correction enhance performance across different lighting conditions, making it suitable for both office and home environments.

This webcam features a 90 degree wide angle field of view, allowing users to capture more of their surroundings without repositioning the device. The built in noise reduction microphone ensures that voices remain clear and free from background distractions, improving overall communication quality during calls and recordings.

Designed for convenience, the plug and play USB interface allows quick installation without the need for additional software. The adjustable mounting clip offers flexible placement on monitors, laptops, or desks, while the integrated privacy shutter provides added security when the camera is not in use. Its durable construction and modern design make it a reliable choice for everyday use.

Features

The Axtel AX-FHD Webcam combines advanced video and audio technology with ease of use to deliver a dependable conferencing solution.

- Full HD 1080p resolution for clear and detailed video output
- Auto focus and auto white balance for consistent image quality
- 90 degree wide angle lens for broader coverage
- Built in digital microphone with noise reduction for clear audio
- Low light correction for improved performance in dim environments
- Plug and play USB connectivity for quick setup
- Adjustable mounting clip for flexible positioning
- Integrated privacy shutter for added security
- Compatible with multiple operating systems and conferencing platforms

Small Device - Large Opportunities

For the AX-FHD Webcam small size and high quality go hand in hand, as it guarantees excellent image resolution with 1080p Full HD transmission with autofocus and Auto White Balance. Excellent noise-cancelling microphone allows your audience to enjoy clear communication, whether it is a short exchange of ideas or a long presentation.

Equipped with a USB cable and the Plug&Play feature, it will easily connect to various devices. Compatible with Windows 10 and as well as older versions - Windows 8 and Windows 7, XP and supports multiple video conferencing software programs.
