Performance tier:High

Uses:Gaming PC builds, custom PC setups, high-performance computing, RGB showcase, component display

Overview:

Antec AX27 RGB Elite ATX Gaming Chassis - Black

The Antec AX27 RGB Elite ATX gaming chassis combines style, performance, and expandability to elevate your PC build. Designed for gamers who want a visually striking and highly functional case, it supports a wide range of components while keeping your system cool and organized.

Description

This mid-tower gaming case features a tempered glass side panel to showcase your components and integrated RGB lighting for a dynamic visual experience. It supports ATX, Micro-ATX, and ITX motherboards, multiple storage drives, high-end GPUs, and advanced cooling setups. The front panel includes USB 3.0 and USB 2.0 ports for easy connectivity, while a tool-free design and spacious interior make building or upgrading your gaming PC simple and efficient.

Features:

Unleash Your Gaming Potential

The Antec AX27 RGB Elite is more than a case-it's the foundation of a powerful gaming rig. With a sleek black finish, modern aesthetics, and customizable RGB lighting, it allows you to build a PC that looks as good as it performs. Show off your high-end components through the tempered glass side panel while enjoying optimal airflow and cooling.

Optimized Cooling for High Performance

Keep your system running at peak performance with support for multiple fan and radiator configurations. This case accommodates up to eight 120mm fans or various radiator sizes, ensuring your CPU and GPU stay cool even during intensive gaming sessions. The full-mesh front panel enhances airflow, reducing heat buildup and maintaining system stability.

Convenience and Expandability

Designed with builders in mind, the AX27 RGB Elite offers tool-free installation and ample room for expansion. Install multiple storage drives and expansion cards with ease, while the efficient cable management system keeps your build neat and organized. Front panel USB ports make connecting peripherals quick and simple, giving you a clutter-free gaming setup.

Durable Build with Modern Style

Constructed from high-quality steel and plastic, this gaming chassis provides a sturdy platform for all your components. The tempered glass side panel and dust filters combine aesthetics with functionality, keeping your system clean and visually appealing. It's a case built to last while enhancing the overall look of your gaming space.
