Xiaomi Mijia Smart Air Purifier 6

Product Overview

Xiaomi Mijia Smart Air Purifier 6, Five-Layer composite filtration purification system, Removes up to 99.98% of particles as Small as 0.3 micron, UV sterilisation, Negative Ion generator, Up to 50 m2 Maximum coverage area, PM1 Sensor, Real-Time Air Quality detection, LCD Colour Display

Specifications

Overview Summary:

Experience cleaner, healthier air in your South African home with the Xiaomi Mijia Smart Air Purifier 6. Designed for spaces up to 50 m², this purifier combines a five-layer filtration system with HEPA and activated carbon filters to remove dust, allergens, and harmful VOCs. With real-time air quality monitoring and smart app control via Xiaomi Home, you can maintain optimal air quality effortlessly. Shop now to breathe easier and improve your family's well-being.

Its quiet operation, UV sterilisation, and negative ion generator make it a reliable solution for any room. Whether for bedrooms, living spaces, or work areas, this air purifier ensures continuous protection from airborne contaminants. Buy now to enjoy smarter, cleaner air with minimal effort.

Performance tier:High

Uses:Air purification, Allergen removal, Odour elimination, VOC reduction, Smart home integration, Bedroom and living room use

Overview:

The Xiaomi Mijia Smart Air Purifier 6 delivers a noticeable improvement in indoor air quality through an advanced multi-layer filtration system that targets dust, allergens, odours, and airborne pollutants. Designed for modern households, it combines high-efficiency HEPA filtration with activated carbon to reduce harmful particles and volatile compounds, helping create a cleaner and more comfortable living environment.

Description:

The Xiaomi Mijia Smart Air Purifier 6 (Part Number: BHR08MZEU) is a high-performance air purification solution built for homes that demand cleaner, healthier air. It uses a five-layer composite filtration system to remove up to 99.98 percent of microscopic particles as small as 0.3 microns, while also tackling odours and harmful gases. With integrated UV sterilisation, a negative ion generator, and intelligent air quality sensors, it actively monitors and improves your indoor environment in real time. Smart app control, voice assistant compatibility, and ultra-quiet operation make it a practical and efficient addition to any room up to 50 m².

Features:

Clean Air for Health-Conscious Living

This air purifier is well suited to households dealing with dust, allergens, or urban pollution. It operates quietly in the background while continuously improving air quality, making it particularly useful for bedrooms, living areas, and family spaces. The balance between performance and low noise output ensures it can run throughout the day and night without disruption.

Advanced Multi-Layer Filtration Performance

At the core of the system is a structured filtration process designed to address multiple air quality concerns in a single unit. Each layer plays a specific role in removing contaminants and improving air clarity.

Key purification elements include:

- Primary filter captures larger particles such as dust, lint, and pet hair
- High-efficiency HEPA filter removes up to 99.98 percent of particles down to 0.3 microns
- Activated carbon layer reduces odours, formaldehyde, and volatile organic compounds
- UV LED sterilisation helps neutralise bacteria and airborne pathogens

ComX Computers

Product Specification Sheet

- Negative ion generator enhances overall air freshness

Real-Time Monitoring and Smart Control

The unit continuously analyses indoor air conditions using integrated sensors, providing immediate feedback and automated adjustments. This ensures efficient purification without constant manual input.

Control and monitoring capabilities include:

- PM1 and PM2.5 particle detection for precise air quality tracking
- Temperature and humidity sensors for environmental awareness
- LCD colour display showing real-time air quality status
- Xiaomi Home app integration for remote access and scheduling
- Voice control support via Google Assistant and Amazon Alexa

Efficient Coverage with Quiet Operation

With a particle CADR of 443 m3 per hour, the purifier is capable of handling medium to large rooms effectively. It maintains strong airflow performance while keeping operational noise at a minimum.

Performance highlights:

- Effective coverage up to 50 m2
- Extended coverage up to 88 m2 at two air changes per hour
- Formaldehyde CADR rated at 218 m3 per hour
- Sleep mode noise level as low as 32 dB(A)

Technical Details and Build Information

The purifier is constructed with durable materials and designed for continuous daily use, combining efficiency with a compact footprint.

Core technical points:

- Part Number / SKU: BHR08MZEU
- Housing material: ABS plastic
- Power consumption: 40 W
- Voltage: 200 to 240 V
- Frequency: 50 to 60 Hz
- Dimensions: 25 x 25 x 56 cm
- Weight: 5.2 kg
- Power source: AC powered

What You Get in the Box

- Xiaomi Mijia Smart Air Purifier 6 unit
- Composite filter
- Power cable
- User manual

Practical Value for Everyday Use

This model integrates strong purification capability with intelligent automation, reducing the need for manual adjustments. Its ability to handle allergens, odours, and airborne pollutants makes it a practical solution for improving indoor air conditions without adding complexity to daily routines. The inclusion of SKU BHR08MZEU ensures easy identification when sourcing replacements or accessories.

Specifications	
Product Code	BHR08MZEU
Material	ABS Plastic Housing
Purification System	Five-Layer Composite Filtration
Primary Filter	Yes (captures dust, pollen, and pet dander)
High-Efficiency Filter	Removes up to 99.98% of particles as small as 0.3um
Activated Carbon Filter	Yes (removes formaldehyde, TVOCs, and odours)
UV Sterilisation	Yes (UV-LED eliminates bacteria and viruses)
Negative Ion Generator	Yes
Particle CADR	443 m³/h
Formaldehyde CADR	218 m³/h
Maximum Coverage Area	Up to 50 m²
Recommended Coverage Area	29-50 m²
Maximum Room Coverage (2 ACPH)	Up to 88 m²
PM1 Sensor	Yes
5 Sensor	Yes
Dust Sensor	Yes
Temperature Sensor	Yes
Humidity Sensor	Yes
Air Quality Monitoring	Real-time air quality detection
Display Type	LCD Colour Display
Air Quality Indicator	Yes
Smart Control	Yes
App Integration	Xiaomi Home App
Voice Control Compatibility	Google Assistant and Amazon Alexa
Filter Replacement Indicator	Yes
Noise Level (Sleep Mode)	32 dB(A)
Rated Power	40 W
Rated Voltage	200-240 V
Rated Frequency	50/60 Hz
Power Source	AC Powered
Dimensions	25 x 25 x 56 cm
Weight	5.2 kg
