

BHR08W0GL

Xiaomi 3A Braided USB Type-C cable - 10cm 60W

Product Overview

Xiaomi 3A Braided USB Type-C cable - 10cm 60W, 90 degrees right-angle Connector Design, USB Type-C to USB Type-C, 60W Maximum Power Output, Up to 60W fast charging support, High-Density Braided cable Sleeve

Specifications

Overview Summary:

The Xiaomi 3A Braided USB Type-C cable (10cm, 60W) is designed for users in South Africa who need fast, reliable charging in a compact form. Its ultra-short length reduces clutter while maintaining strong 60W power delivery for efficient charging and stable data transfer. Ideal for keeping setups neat at home, in the office, or in the car.

Built with a durable braided fibre sleeve and reinforced TPE construction, this cable is engineered for long-term use and frequent plugging cycles. The 90degrees right-angle connector improves comfort and reduces strain on device ports, making it suitable for handheld use, gaming, or tight charging spaces. It is a practical upgrade for anyone using USB-C devices who values portability and durability.

Shop now to streamline your charging setup with a compact, high-performance cable built for everyday efficiency.

Performance tier:High-performance compact charging accessory

Uses:Smartphones, tablets, laptops, wearables, gaming handhelds, travel charging, desk cable management, car console charging

Overview:

Xiaomi 3A Braided USB Type C Cable 10cm 60W Right Angle Charging Cable

Power up quickly and connect without clutter with this compact Xiaomi USB Type C cable designed for efficient charging and clean setups. The 10cm length and angled connector make it ideal for users who need fast power delivery without excess cable mess, whether at a desk, in a car, or while travelling. It supports up to 60W fast charging and is built for stable charging and data transfer performance across compatible devices.

Description:

This Xiaomi braided USB Type C to USB Type C cable delivers a compact and durable charging solution designed for modern mobile use. With a 10cm form factor, 60W power delivery support, and a 90 degrees right angle connector design, it reduces cable strain while improving comfort during use. The high-density braided exterior combined with a reinforced TPE structure enhances durability, making it suitable for frequent daily use. It is engineered to support fast charging and reliable syncing for smartphones, tablets, laptops, and other USB Type C devices.

Features:

Compact design for clutter-free environments

The ultra-short 10cm cable length is purpose-built to reduce cable clutter and improve organisation in tight spaces. It is especially useful for power banks, desk charging stations, and in-vehicle setups where longer cables create unnecessary tangles. The angled connector also improves usability when devices are used while charging, keeping the cable positioned naturally against the device body.

Durable construction built for repeated use

This cable is constructed with a high-density braided fibre outer layer reinforced with TPE and stainless steel connectors. It is designed to withstand more than 10,000 plug and unplug cycles and over 10,000 bend tests, ensuring long term reliability under regular stress. The structure also supports tensile strength of 100N or higher, providing additional durability during everyday handling and transport.

Key performance points

- Supports up to 60W fast charging for compatible devices
- 3A rated current for stable charging and data transfer
- 10cm ultra-short design to minimise cable clutter
- 90 degrees right angle connector to reduce port strain
- Braided fibre exterior for enhanced durability
- Designed for 10,000 plus durability cycles and bend resistance

Everyday compatibility and usage

The cable is suitable for a wide range of USB Type C devices including smartphones, tablets, laptops, and wearables. It is particularly effective for users who require short-distance charging solutions such as gaming while charging, desk setups, or compact travel kits. Its angled connector improves comfort during handheld device use while charging.

Technical details

SKU BHR08W0GL

- Cable type: USB Type C to USB Type C
- Maximum power output: 60W

ComX Computers

Product Specification Sheet

- Rated current: 3A
- Rated voltage: 20V
- Connector design: 90 degrees right angle
- Material construction: TPE, braided fibre, stainless steel
- Cable length: 10cm (0.1m)
- Durability rating: 10,000 plus plug and unplug cycles
- Bend resistance: 10,000 plus bend cycles
- Tensile strength: 100N or higher
- Compatibility: Smartphones, tablets, laptops, wearables
- Colour: Dark grey

Specifications	
Product Code	BHR08W0GL
Cable type	USB Type-C to USB Type-C
Connector design	90degrees right-angle (angled connector)
Maximum power output	60W
Rated current	3A
Rated voltage	20V
Fast charging support	Yes (up to 60W)
Material	TPE, braided fibre, stainless steel
Outer jacket	High-density braided cable sleeve
Durability (plug/unplug cycles)	10,000+ cycles
Bend resistance	10,000+ bend tests (+/-90degrees)
Tensile strength	>=100N
Flexibility	Flexible & durable construction
Compatibility	Smartphones, tablets, laptops, wearables
Colour	Dark grey
Cable length	10 cm (0.1 m)
