Xiaomi Portable Electric Air Compressor 2

Product Overview

Xiaomi Portable Electric Air Compressor 2. Inflation pressure range: 0.2-10.3 bar/3-150 psi

Specifications

Overview:

The Xiaomi Portable Electric Air Compressor 2 features increased speed and air volume, to get you back on the road faster. You can fully inflate 2 car tires or top them up, thanks to enhancements that deliver even more inflation performance on a full charge with up to 25% faster inflation than the Air Compressor 1S. Its 19mm high-precision cylinder block supports pressures up to 150 psi making it ideal for various tire types. Made from high-quality alloy materials, the portable air compressor inflates from 0 to 150 psi in just 20 seconds, making it suitable for use with shock absorbers on mountain bikes, as well as high-pressure tires on road bikes.

Its highly accurate air pressure sensors mean no more fiddling with manual pumps. The digitally controlled air-pressure sensors improve inflation accuracy to +/-1 psi, putting an end to back-and-forth tire pressure checks as you inflate. It also features six preset tire pressures, for greater ease and peace of mind. The Xiaomi Portable Electric Air Compressor 2 automatically stops inflating your tires when your desired pre-set pressure is reached. It also remembers your pressure values, so you don't have to keep setting it up repeatedly whenever you use it.

The Xiaomi Portable Electric Air Compressor 2 features six different inflation modes, each with preset air pressure values which prevent over-inflation. This makes the Xiaomi Portable Electric Air Compressor 2 more convenient and easy for anyone to use. Say goodbye to wires, thanks to the internal lithium batteries. Lithium batteries mean no external power source is required, and no more cumbersome power cables are needed.

Weighing in at only 490g, it features a lightweight body for greater portability, making it ideal for when you want to travel light. Slip it in your bag, leave it at home, or place it in your car, this beautiful device takes up no space at all, no matter where it's stored. It also features a built-in LED light for night-time use with an SOS flashing feature in case of an emergency.

Features:

- 25% Faster Inflation
- Compact Design
- Internal Lithium Batteries

ComX Computers

Product Specification Sheet

- Six Inflation Modes
- Type-C Port
- Prevents Over-inflation

Specifications:

Inflation pressure range	0.2-10.3 bar/3-150 psi
Operating temperature	-10 degreesC to 45 degreesC
Charging	5 degreesC-40 degreesC.
Storage temperature	-10 degreesC to 45 degreesC
Battery Type	Lithium-ion Battery
Battery capacity	14.4Wh (2000mAh)
Noise value during operation	
Sensor Accuracy	+/-1 psi
Input parameters	5V ~ 2A
Charging port	Type-C
Charging time	
Product Dimensions	12.3 x 7.5 x 4.5 cm
Product Weight	490g
