Xiaomi CW300 Outdoor Camera

Product Overview

Xiaomi CW300 Outdoor Camera

Specifications

Features:

Ultra-clear picture quality Amazing details even zoomed in
The 4MP camera with the f/1.6 large aperture lens presents 2.5K ultra-clear picture quality, offering a clearer and finer image when you zoom in for more details.

Four full-color night vision LEDs Achieve clear visibility at night
The camera comes with a white light that automatically lights up at night when it recognizes a human figure, providing a colored image in dark surroundings.

Horizontal and vertical gimbals Greater viewing angle for more peace of mind
The dual-motor pan-tilt zoom design allows users to rotate the lens in all directions via their smartphone, allowing for a larger viewing angle as well as more flexible and reassuring protection.

Professional IP66 water and dust resistant design No fear of adverse weather conditions
The IP66 water and dust resistance rating enables stable performance in adverse weather conditions.

Human detection supported Automatic notification when someone approaches
The camera uses a next-generation local AI human-detection algorithm to detect humans more accurately and faster, no cloud needed. When a person is detected, the camera automatically records alert videos and sends notifications to your smartphone.

Track a human body as it moves
The camera intelligently tracks human movement. When someone is detected and locked on to, it automatically tracks and records videos of the person as they move and sends notifications to your smartphone.

Audible and visual alarm for active defense With alarm notifications sent to your smartphone
When the camera detects someone in the monitoring area, it will automatically trigger an audible alarm with high-frequency flashing lights to drive away potential intruders. It will also simultaneously send an alarm message to Mi Home/Xiaomi Home

app.

Easy to view
Slide through the timeline to easily find and view videos.

Two-way voice calling Handle noisy outdoor environments with ease
The camera comes with a built-in high-sensitivity microphone and high-quality high-power speaker, boosted with an AI noise cancellation algorithm. The long pickup range ensures loud and clear sound even under complex outdoor conditions.

Voice Control
Voice control works with Amazon Alexa or Google Assistant

Wired + Wi-Fi dual network Say goodbye to lag
2.4GHz Wi-Fi network supported. The camera also comes with a built-in Ethernet port so you can choose your preferred connection method. The connection is more stable, reducing connection disruptions and providing a smooth user experience.

Hardware-level protection Your privacy is safe
Each built-in MJA1 security chip is provided with a unique key and credential to effectively protect the data communication and privacy of users with financial-grade security measures.

Ceiling mounting, side mounting, pole mounting Flexible installation in outdoor areas
Three installation methods are available: ceiling mounting, side mounting, and pole mounting. Users can choose the installation method as required.

Considerate design for improved ease of use
Choose from two storage methods

H.265 encoding technology
Save storage space and bandwidth usage for smooth video play

Purchase and installation instructions
This product does not come with installation service. Please refer to the user manual and the installation video to install the device. Thank you for your support!
