Xiaomi Smart Camera C301 White 2K Indoor Wi-Fi Security Camera; 2K 2304 x 1296 video; infrared night vision; two way audio; MicroSD storage 8GB to 256GB; 360 x 107 rotation; WiFi monitoring

Specifications

About this product

The delivers crisp 2K resolution video, integrated night vision, and a retractable privacy shield for secure indoor monitoring via Wi-Fi and smartphone apps, making it ideal for home security and smart surveillance.

Overview Summary

The Xiaomi Smart Camera C301 White is a premium indoor Wi-Fi security camera that combines advanced 2K (2304 x 1296) image clarity with intelligent surveillance features for dependable home protection. Equipped with infrared night vision, two-way audio, and a physical lens shield, this camera helps you monitor living spaces with precision day and night.

Designed for seamless integration with the Xiaomi Home app and compatibility with Android and iOS devices, this indoor camera supports flexible storage via MicroSD (8GB to 256GB) and cloud options. Its compact design and 360 x 107 degree rotation make it easy to place in any room for effective oversight.

This camera balances high quality imaging, reliable connectivity over 2.4 GHz Wi-Fi, and user privacy controls, making it a strong choice for enhancing smart home security.

Performance tier:Mid-range smart home security

Uses:Home monitoring, baby room security, pet watching, office surveillance, elderly care

Description

The Xiaomi Smart Camera C301 White 2K Indoor Wi-Fi Security Camera blends modern design with reliable performance for everyday home security needs. It captures high resolution 2K video, offering detailed footage that enhances visibility and object recognition. A built-in set of six infrared lights ensures clear night vision in low light conditions, while a physical privacy shield gives users control over when the camera lens is exposed.

Connectivity is handled via stable 2.4 GHz Wi-Fi, enabling remote access to live video and recordings through the Xiaomi Home app on Android and iOS devices. The camera supports flexible storage with MicroSD card capacities from 8GB to 256GB and secure cloud options. Two-way audio allows real-time communication, making this camera suitable for monitoring children, pets, or elderly family members.

With 360 degree horizontal and 107 degree vertical rotation, the C301 covers a wide field of view, reducing blind spots and giving homeowners a comprehensive picture of indoor areas. Its compact white housing fits discreetly into interiors, offering smart surveillance without disruption.

Features

Key features add convenience, privacy, and flexible monitoring options for everyday indoor security:

- High resolution 2K video: Captures sharp footage for improved clarity and identification.
- Infrared night vision: Six 940 nm LEDs ensure clear video in low light.
- Physical privacy shield: Retractable lens for peace of mind when monitoring is not needed.
- Two-way audio: Built-in mic and speaker allow communication through the camera.
- Flexible storage: Supports MicroSD (8GB to 256GB) and cloud storage.
- Wide coverage: 360 degree horizontal and 107 degree vertical view reduces blind spots.
- App integration: Works with Xiaomi Home app for remote access and alerts.

The Xiaomi C301 is the ultimate wireless security camera solution for the discerning homeowner.

This intelligent indoor security camera is meticulously engineered to offer unparalleled peace of mind, blending advanced 2K resolution clarity with robust privacy features. Designed for the unique needs of homes across South Africa, the Xiaomi C301

ComX Computers

Product Specification Sheet

acts as a vigilant guardian, ensuring every corner of your living space is monitored with precision. It is more than just a camera; it's an essential component of a secure and connected home, providing reliable surveillance that integrates seamlessly into your daily life. For those who seek dependable security without compromise, this 2K resolution camera stands ready to serve.

Exceptional clarity meets intelligent surveillance

Experience true visual fidelity with the Xiaomi C301's impressive 2304 x 1296 resolution. This advanced 2K resolution camera captures footage with stunning detail, allowing you to discern even the subtlest movements or identify individuals with absolute confidence. Complementing its visual prowess, the integrated 940 nm infrared night vision, powered by six discreet LED lights, extends its operational reach into the deepest darkness. This ensures your home remains under vigilant watch, day and night, making it an indispensable asset for comprehensive home security.

Privacy as a paramount concern

Your personal space is respected with the C301's innovative physical lens shielding feature. At your command, the camera lens retracts discreetly into its housing, providing a tangible assurance of privacy. This function is critical for maintaining a secure and private environment within your home, offering peace of mind when active monitoring is not required. It's a thoughtful design choice that underscores Xiaomi's commitment to user control and discretion in wireless security cameras.

Flexible storage for your security footage

Securely store your valuable recordings with versatile options tailored to your preferences. The Xiaomi C301 supports MicroSD cards with capacities ranging from 8GB to a generous 256GB, enabling ample local storage for continuous recording or event-triggered clips. For enhanced data management and accessibility, secure cloud storage solutions are also readily available, providing a reliable backup that can be accessed remotely. This dual-storage approach ensures your critical footage is always protected.

Seamless integration and dependable connectivity

Engineered for the modern smart home, the C301 establishes a stable and reliable connection through its 2.4 GHz Wi-Fi (IEEE 802.11 b/g/n) capabilities. This ensures uninterrupted monitoring and swift access to your camera feed via the Xiaomi Home app, compatible with Android 8.0 and iOS 12.0 or higher. Its compact form factor (78 x 76 x 115 mm) allows for discreet placement, blending harmoniously into any room of your home, making it an ideal choice for indoor security camera needs.
