Overview:

XIAOMI SMART BAND 9 ACTIVE

The Xiaomi Smart Band 9 Active delivers an exceptional blend of cutting-edge technology, comfort, and functionality. Boasting a 1.47-inch TFT touch display with a 60Hz high refresh rate, it ensures ultra-smooth visuals and responsive interactions, making every swipe and operation seamless. The lightweight design, at just 16.5g, offers a barely-there feel, whether you're at the office, hitting the gym, or catching up on sleep. Its replaceable frame allows you to personalize the look, adding a touch of style to your daily wear.

Designed for all-day performance, the Smart Band 9 Active features automatic health and fitness monitoring to keep you in tune with your well-being around the clock. Advanced sensors, including a PPG sensor and light path detection, ensure precise tracking of health metrics like heart rate, SpO2 levels, and stress levels. Optimized algorithms deliver professional-grade results, enhancing your fitness journey. Scientific sleep monitoring captures data on sleep stages, such as deep sleep, light sleep, and REM, helping you improve your sleep habits for better health.

The band supports an impressive array of 100 sports modes, including running, outdoor cycling, and rowing, offering real-time metrics and insights to optimize your workouts. With 5ATM water resistance, it's ready to accompany you for a swim or endure unexpected rain. Reliable performance meets convenience with Bluetooth 5.3 BLE connectivity, ensuring seamless integration with your devices. Plus, customizable watch faces-over 100 options-let you switch styles to match your mood or activity.

Powered by a 300mAh battery and a new low-power chip platform, the Xiaomi Smart Band 9 Active delivers up to 18 days of typical usage, a 29% improvement over its predecessor. Magnetic charging ensures hassle-free recharging in under two hours. With support for Mi Fitness on Android and iOS, the band provides a comprehensive suite of health and fitness tools in a compact, stylish package, perfect for users who demand style and substance in their wearable tech.
