offers flexibility when arranging workstations, charging stations, or mobile device deployments, making installation simple while maintaining reliable power delivery.

Features:

Designed for Zebra Charging Solutions

This DC power cable is intended for powering compatible Zebra single-slot cradles and four-slot battery chargers. When paired with the appropriate Level VI efficiency power supply, it helps keep Zebra mobile computers and batteries charged and ready for daily business operations.

The 1.8 metre cable length provides convenient installation options, allowing equipment to be positioned where it is needed without unnecessary cable strain.

Key Details

- Part Number / SKU: CBL-DC-388A1-01-UP
- Zebra model: CBL-DC-388A1-01
- Cable length: 1.8 metres
- Input voltage: 12V
- Input current: 4.16A
- Compatible with Zebra single-slot cradles
- Compatible with Zebra four-slot battery chargers
- Designed for use with a Level VI efficiency power supply

Ideal Business Applications

Whether deploying Zebra charging stations in a warehouse, retail store, healthcare facility, or logistics operation, this power cable provides the dependable connection required for continuous charging. It is suitable for both new installations and replacing an existing cable within compatible Zebra charging systems.

When ordering replacement accessories, referencing the Part Number CBL-DC-388A1-01-UP helps ensure compatibility with supported Zebra charging equipment.
