Specifications

Overview:

2500X Mid-Tower Dual Chamber PC Case - Black

The CORSAIR 2500X Mid-Tower Dual Chamber PC Case delivers exceptional airflow and cooling with fully mesh paneling and a dual chamber design for an organized, stunning build.

- Dual chambers for a streamlined look
- Lots of customization options
- Compatible with reverse connector mATX & mITX motherboards
- Wide cooling flexibility

Features:

2500X

MICRO ATX DUAL CHAMBER CASE

CHOOSE YOUR ADVENTURE

Freedom of choice inside and out. Choose your cooling setup: opt for more glass to showcase your components, or a more subtle airflow configuration - in more than just black or white.

SMALL BUILD, LOTS OF SPACE

The 2500 Series can house a powerhouse PC with an impressively small footprint. Ensure that your build is clean, organized, and well cooled in the primary chamber while hiding cable routing, storage drives, and your PSU in the second chamber.

A FLAWLESS VIEW

Take advantage of reverse connector motherboard compatibility (ASUS BTF, MSI PROJECT ZERO) and iCUE LINK and win the war on cables once and for all.

ZERO COMPROMISE AIRFLOW

The 2500X doesn't just look cool. Fan and radiator mounts all around ensure enough airflow for any flagship build.

WIDE COOLING FLEXIBILITY

Customize your cooling setup with room for up to 9x 120mm or 6x 140mm fans, including versatile radiator mounting options for up to 240mm in the side, and up to 360mm in the roof and bottom.

MODERN FRONT I/O

Puts your connections within easy reach, including a USB 3.2 Gen 2 Type-C Port, 2x USB 3.2 Gen 1 Type-A ports, and a combination audio/microphone jack.

- Reset Button
- 2x USB 3.2 Gen 1 Type-A Ports
- USB 3.2 Gen 2 Type-C Port
- Headphone / Mic Combo Jack
- Power Button
