Specifications

Overview Summary:

The Corsair Vanguard 96% Gaming Keyboard is built for gamers and creators who want speed, precision, and a premium typing feel in a compact full-function layout. With MLX Fusion tactile mechanical switches, ultra-fast 8000Hz polling, and a durable wired connection, it delivers reliable performance for intense gaming sessions and everyday productivity.

Designed to fit seamlessly into modern PC setups, the Vanguard 96 combines advanced customization, onboard profiles, and solid build quality into one versatile keyboard. Whether you are upgrading your gaming rig or refining your workstation, this keyboard offers a balanced mix of responsiveness and comfort. Buy now and take control of every keystroke with confidence.

Performance tier:High-end

Uses:Competitive gaming, PC gaming, streaming setups, content creation, everyday typing

Overview:

Corsair Vanguard 96 Mechanical Gaming Keyboard with MLX Fusion Switches

The Corsair Vanguard 96 is a full-size mechanical gaming keyboard built around a space-efficient 96 percent layout that keeps every essential key right where you expect it. Designed from years of esports feedback and Corsair engineering heritage, it blends competitive-grade performance with deep customization. A vibrant integrated LCD screen, high-speed 8000Hz polling, and a solid wired connection make it equally suited for high-level gaming, streaming, and everyday productivity.

Description:

The Corsair Vanguard 96 mechanical gaming keyboard delivers fast, reliable input with MLX Fusion tactile switches, ultra-low latency performance, and a compact full-key layout. It includes onboard memory for profiles, advanced anti-ghosting, customizable controls through a web-based hub, and premium build touches like sound dampening and a magnetic wrist rest. Built for players who want speed, control, and flexibility without sacrificing keys.

Features:

Designed for Competitive Play and Daily Use

Built on Corsair's long-standing keyboard legacy, the Vanguard 96 balances tournament-ready responsiveness with a layout that feels instantly familiar. The 96 percent form factor saves desk space while preserving the numpad and function row, making it practical for work as well as gaming.

Product Specification Sheet

Ultra-Responsive Input Performance

When reaction time matters, the Vanguard 96 keeps pace with your intent. An 8000Hz polling rate drastically reduces input delay, helping ensure every keystroke is registered with precision during intense gameplay or rapid command execution.

Key Performance Highlights

- Up to 8000Hz keyboard report rate
- Full key rollover with 100 percent anti-ghosting
- Wired USB Type-A connectivity via USB-C cable

MLX Fusion Tactile Switch Experience

Pre-installed MLX Fusion mechanical switches provide a tactile, satisfying keystroke designed for both accuracy and comfort. Each switch is factory lubricated and built for long-term durability, offering consistent feedback across long sessions.

Switch Characteristics

- Tactile response with controlled actuation
- 40g actuation force
- 80 million keystroke lifespan

Customization Without the Hassle

Personalization is handled through the Corsair Web Hub, allowing you to fine-tune macros, lighting, and key assignments directly from a browser. Settings can be saved to onboard memory, so your profiles travel with the keyboard.

Personalization Options

- Five onboard profiles stored locally
- Macro and key remapping support
- Adjustable RGB lighting

Integrated Controls and Smart Design

The built-in LCD screen opens up new ways to display system info, animations, or custom graphics. Dedicated media controls, a multifunction rotary dial, and programmable G-keys put extra commands within easy reach.

Built-In Control Elements

- Integrated LCD display
- Rotary dial with multiple modes
- Media and volume controls

Comfort and Build Quality

Designed for long sessions, the Vanguard 96 includes thoughtful ergonomic details and internal sound dampening to refine both feel and acoustics. Adjustable height settings let you dial in a comfortable typing angle.

Comfort and Construction

- Magnetic detachable wrist rest included
- Dual-stage adjustable height
- Quad-layer internal sound dampening

Connectivity and Compatibility

The keyboard connects via a detachable USB-C cable and works across multiple operating systems, making it a flexible option for mixed setups and different workflows.

System Support

- Compatible with Windows, macOS, and Linux

ComX Computers

Product Specification Sheet

- Detachable USB-C to USB Type-A cable
- Adjustable angle for different desk setups

Common Questions Answered

The Vanguard 96 supports hot-swapping with compatible 3-pin and 5-pin mechanical switches. It includes 8MB of onboard memory for storing profiles directly on the keyboard. Macros and lighting can be configured using the Corsair Web Hub. The keyboard includes a full numpad and function keys for non-gaming tasks. Media functions are accessible through FN combinations and the rotary dial. The keyboard supports an 8000Hz polling rate for ultra-fast response.
