Corsair CC-9011213-WW Obsidian Series 5000X RGB White, with 4x tool-free Tempered glasses - support 2x vertical VGA mounting via optional riser cable kits, RapidRoute cable management + easy-access hinged door - support 4x radiators (120/240/280/360mm), No PSU (bottom placed PSU design), support up to 420mm graphics card; 1x USB 3.1 type-C + 2x USB 3.0 + audio in/out - 2x3.5" hidden, 4x 2.5" - 2x 120mm fan up to 10 - Node CORE fan control hub + 3x SP120 Elite RGB fans up to 10, 4x dust filters (front/ top/ psu/ side) - E-ATX

Specifications

Overview:

The CORSAIR iCUE 5000X RGB is a mid-tower ATX case that shows off your PC, and not its cables. Four stunning tempered glass panels and three included CORSAIR SP RGB ELITE fans put your PC on display.

Features:

Clear, Clean, and Cool

Four tempered glass panels show off your showpiece-worthy PC, while generous dust-filtered air channels provide minimal obstruction and ample airflow.

Maximum cooling potential

The 5000X RGB has incredible flexibility when it comes to cooling. With up to ten 120mm fan mounts, three included SP RGB ELITE fans with CORSAIR AirGuide technology and three separate 360mm radiator locations, the only limit to your cooling options is your imagination.

There's no replacement for displacement

The 5000X RGB isn't your run-of-the-mill, standard mid-tower ATX case. Its brilliantly engineered interior offers incredible expansion potential for liquid cooling.

Powerful directed Airflow

Equipped with three CORSAIR SP RGB ELITE 120mm fans featuring AirGuide technology with anti-vortex vanes to concentrate airflow and enhance cooling.

Take command of your cooling

ComX Computers

Product Specification Sheet

A PWM fan repeater controls the included fans, with connections for up to six in total. Reduce fan speed when you want to keep your system quiet, or increase when you want to push its performance, all from a single 4-pin PWM header on your motherboard.

Extreme Cooling

Maximum Cooling Potential: A spacious interior fits up to 10x 120mm or 4x 140mm cooling fans, along with multiple radiators including up to a 360mm in front and a 360mm push/pull in the roof.

Dimensions

Expansion-friendly, the 5000X RGB has room for extensive air or liquid-cooled configurations.

Fan Capacity

Fan mounts feature wider cutouts, allowing fan placement customization and flexibility.

Radiator Capacity

Install two simultaneous 360mm radiators in any of three 360mm radiator mounting locations to keep things cool.

Smart rgb lighting out-of-the-box

Fully control and synchronize the RGB lighting for up to six fans with the included iCUE Lighting Node CORE and CORSAIR iCUE software.

CORSAIR RapidRoute Cable Management

Quickly and easily route your major cables through a single hidden channel, with a roomy 25mm of space behind the motherboard for all of your cables, easily concealed by a hinged steel door.

Modern Front Panel I/O

Puts your connections within easy reach, including a USB 3.1 Type-C Port, 2x USB 3.0 port, and a combination audio/microphone jack.

vertical gpu mount ready

With included vertical PCIe slots and a screw mount for a CORSAIR PCI-Express 3.0 extension cable (sold separately), you can show off your GPU and keep it secure at the same time.
