Features:

In Win + MSI = Glorious PC

In Win and MSI are globally renowned brands in the PC building community. We each have a similar goal to persistently break the limits, and strive for innovation. In Win and MSI unite for the first time to design the In Win 303-MSI Dragon Edition. The simple aesthetic is slightly altered, but preserved enough to bring forth the stunning Dragon Edition to life.

Spirit of the Dragon Unleashed!

The In Win 303-MSI Dragon Edition is crafted from steel and tempered glass. The distinctively simple front panel is complemented with an RGB I/O strip to balance the overall appearance. Its aesthetic design embodies the spirit of innovation.

Radiant Luminosity

The logo and front I/O strip are highlighted with an RGB LED to provide users with incredible visual experience. Even the 3mm tempered glass side panel will flash a fantastic array of colors!

Accelerated Tool-less Design

In Win has set a standard for being an innovative computer hardware company. Mission accomplished since it has perfected a tool-less design by being able to remove the beautiful 3mm tempered glass side panel by just pressing the handle.

User Friendly Dust Filter

This easily accessible dust filter has an embedded design for quick removal. It's conveniently located on the bottom, and removing dust has never been easier.

Versatile Cooling Options

The In Win 303-MSI Dragon Edition can accommodate two radiators (top and rear) and three fans at the bottom providing users with a well-cooled rig. The cool air intake from the bottom creates efficient air flow for quick heat dissipation.

In Win's Attention to Detail

The In Win 303-MSI Dragon Edition constructed with 1.2mm SECC, supports 2.5" and 3.5" drive bays, and its separate PSU chamber provides an ideal climate without interfering with the motherboard and graphics card area. The specialized GPU holder can provide extra support to graphics cards. Yet another detail In Win oversees when manufacturing to make PC building much easier.
