CHROMAKIT3000BLK

Armaggeddon Chroma Kit 3000 Black Cooling 12cm Fan Kit

Product Overview

Armaggeddon Chroma Kit 3000 Black Cooling 12cm Fan Kit

Specifications

About this product

The Armaggeddon Chroma Kit 3000 Black Cooling 12cm Fan Kit delivers efficient airflow and vibrant RGB lighting with 5 x 120mm fans, designed for reliable PC cooling and improved system performance. Featuring 16 x RGB LED lighting per fan, durable PBT construction, and a 4-pin Molex connector for easy installation, this kit is ideal for gaming builds and custom PCs. Buy now from our website for enhanced cooling and visual impact.

Overview Summary

Armaggeddon Chroma Kit 3000 12cm RGB Cooling Fan Kit - Black

The Armaggeddon Chroma Kit 3000 is a complete cooling solution designed for PC users who want both performance and style. This kit includes 5 x 120mm fans equipped with 16 x RGB LEDs per fan, delivering consistent airflow while enhancing your system with solid colour lighting effects. The fans are built with durable PBT materials to ensure long term reliability.

With a balanced airflow of 30.54 CFM and low noise output of 19dBA, this fan kit is suitable for maintaining stable temperatures in gaming PCs and workstations. The 4-pin Molex connector allows for straightforward installation, making it a practical choice for both new builds and upgrades.

Performance tier: Entry-level to Mid-range

Uses:PC cooling, gaming PC builds, custom desktop builds, airflow improvement, RGB lighting enhancement

Description

The Armaggeddon Chroma Kit 3000 is designed to provide consistent cooling performance while adding visual appeal to any desktop system. Each fan in the kit measures 120 x 120 x 25mm, making them compatible with most standard PC cases. The fans are engineered to deliver steady airflow, helping to reduce internal temperatures and maintain optimal system stability during extended use.

Each fan features 16 integrated RGB LEDs that produce solid colour lighting effects, enhancing the look of gaming rigs and

workstation builds. The lighting adds a modern aesthetic without requiring complex configuration, making it suitable for users who want a simple yet effective visual upgrade.

The fan blades are optimized for airflow efficiency while maintaining low noise levels, ensuring a quieter computing experience. With a rated lifespan of up to 40000 hours, the kit offers long term reliability for continuous operation. The use of a 4-pin Molex connector ensures easy compatibility with a wide range of power supplies.

This cooling kit is ideal for improving airflow in mid tower and full tower cases, supporting better thermal management for components such as CPUs and GPUs.

Features

The Armaggeddon Chroma Kit 3000 combines performance cooling with visual enhancement, making it suitable for a wide range of PC builds.

- 5 x 120mm cooling fans - Provides improved airflow across your PC case for better thermal performance
- 16 x RGB LEDs per fan - Delivers bright and consistent lighting for enhanced aesthetics
- Low noise operation - Operates at approximately 19dBA for quieter performance
- Efficient airflow design - Generates up to 30.54 CFM for effective cooling
- Durable PBT construction - Ensures long lasting performance and resistance to wear
- 4-pin Molex connector - Enables easy installation and wide compatibility
- Solid colour lighting modes - Simple lighting effects without complex setup

What's in the Box

- 5 x Armaggeddon Chroma 120mm RGB Cooling Fans

Specifications

- Fan size: 120 x 120 x 25mm
- Fan speed: 1200 +/- 200 RPM
- Airflow: 30.54 CFM
- Air pressure: 0.52 mmAq
- Noise level: 19 dBA
- Fan lifespan: 40000 hours
- Connector: 4-pin Molex
- Lighting: 16 x RGB LEDs per fan
- Lighting modes: Solid colours
- Material: PBT
- Number of fans: 5
- Colour: Black

FAQ

Is the Armaggeddon Chroma Kit 3000 compatible with all PC cases?

Yes, the fans use a standard 120mm size, making them compatible with most mid tower and full tower PC cases that support 120mm fan mounts.

Does this fan kit support motherboard RGB control?

No, this kit uses solid colour RGB lighting and does not require motherboard software control.

How are the fans powered?

The fans use a 4-pin Molex connector, allowing direct connection to the power supply for stable operation.

Is this kit suitable for gaming PCs?

Yes, the airflow and cooling performance make it suitable for gaming systems, helping to maintain stable temperatures during extended sessions.

Are these fans noisy during operation?

No, the fans operate at around 19 dBA, providing relatively quiet performance while maintaining effective airflow.
