

CNV-USB-CR-Y-9313D

Unitek Y-9313D USB3.0 Multi Card Reader with Type-C Adapter

Product Overview

Unitek Y-9313D USB3.0 Multi Card Reader with Type-C Adapter; SD, MicroSD, MicroSDHC, MicroSDXC and CF support; USB-A and USB-C; up to 5Gbps; aluminium alloy; bus powered; plug and play; 68 x 64 x 14mm; 15cm cable

Specifications

About this product

The Unitek Y-9313D USB3.0 Multi Card Reader with Type-C Adapter provides fast and convenient access to SD, Micro SD and CF memory cards through USB 3.0 SuperSpeed connectivity. With support for USB Type-A and USB Type-C devices, plug and play operation and transfer speeds up to 5Gbps, it is a practical solution for photographers, content creators and users transferring files from memory cards. Buy now from our website for a versatile memory card reader solution.

Overview Summary

Unitek Y-9313D USB3.0 Multi Card Reader with Type-C Adapter is a compact multi-format card reader designed for convenient data access and transfer. It supports MicroSD, MicroSDHC, MicroSDXC, SD and CF cards and connects to compatible devices using USB Type-A or USB Type-C.

USB 3.0 SuperSpeed technology provides data transfer rates of up to 5Gbps when connected to a compatible USB 3.0 host. The plug and play design requires no complicated driver installation, while bus-powered operation means no separate power supply is required.

The aluminium alloy housing provides a compact and practical design for desktop use or carrying between locations. The included USB Type-C adapter allows the reader to be used with compatible USB Type-C devices as well as traditional USB Type-A ports.

Performance tier: High-speed USB 3.0 multi-format card reader

Uses: Photo transfers, video transfers, memory card access, file backup, content creation, general data transfer

Description

The Unitek Y-9313D is a USB3.0 multi-format memory card reader designed to provide convenient access to commonly used flash memory cards. It features dedicated slots for SD, MicroSD and CF cards and connects to a computer or compatible

device through USB Type-A or USB Type-C.

With USB 3.0 SuperSpeed connectivity, the Y-9313D supports data transfer rates of up to 5Gbps when used with a compatible USB 3.0 host. This makes it suitable for transferring photographs, videos and other files from memory cards to a computer or compatible device.

The reader supports MicroSD, MicroSDHC, MicroSDXC, SD and CF card formats. MicroSD cards can be inserted directly without requiring a separate MicroSD adapter. The included Type-C adapter provides flexibility when connecting the reader to devices equipped with USB Type-C.

Plug and play operation allows the card reader to be used without complicated driver installation on supported operating systems. Bus-powered operation means the reader draws its power from the connected USB port, avoiding the need for a separate power supply.

The compact aluminium alloy construction is suited to users who need a portable card reader for everyday file transfers, photography workflows, video production, backups and general memory card access.

Features

The Unitek Y-9313D combines multi-format memory card support with USB 3.0 connectivity and a USB Type-C adapter for flexible use across compatible devices.

- USB 3.0 SuperSpeed: Supports data transfer rates of up to 5Gbps with a compatible USB 3.0 host.
- Multi-format card support: Supports MicroSD, MicroSDHC, MicroSDXC, SD and CF memory cards.
- USB Type-A connectivity: Includes a USB Type-A connection for compatible computers and devices.
- USB Type-C compatibility: Includes a USB Type-C adapter for compatible Type-C devices.
- Plug and play: Designed for use without complicated driver installation on supported operating systems.
- Bus powered: Draws operating power through the connected USB port without requiring a separate power supply.
- Direct MicroSD access: MicroSD cards can be inserted directly into the reader without a separate card adapter.
- Compact aluminium alloy housing: Provides a practical and portable design for regular use.
- USB backward compatibility: Compatible with USB 2.0 and USB 1.1 interfaces.

What's in the Box

- 1 x Unitek Y-9313D USB3.0 Multi-In-One Aluminium Card Reader
- 1 x USB Type-C adapter

Specifications

- Brand: Unitek
- Model: Y-9313D
- Product code: CNV-USB-CR-Y-9313D
- Product type: USB3.0 multi-format memory card reader
- Card slots: 1 x CF, 1 x SD, 1 x MicroSD
- Supported memory cards: MicroSD, MicroSDHC, MicroSDXC, SD, CF
- USB Type-A: 1 x USB 3.0 5Gbps male
- USB Type-C: 1 x USB 3.0 5Gbps male via included adapter
- Maximum data transfer rate: 5Gbps
- CF transfer speed: Up to 120MB/s
- SD transfer speed: Up to 104MB/s
- Cable length: 15cm
- Power: Bus powered
- Material: Aluminium alloy

ComX Computers

Product Specification Sheet

- Colour: White
- Dimensions: 68 x 64 x 14mm
- Operating system support: Windows 10/11 32-bit and 64-bit, Linux kernel 3.x, Mac OS 10.6 or above
- Installation: Plug and play
- USB compatibility: USB 3.0, USB 2.0 and USB 1.1

FAQ

What memory cards does the Unitek Y-9313D support?

The Y-9313D supports MicroSD, MicroSDHC, MicroSDXC, SD and CF memory cards through its dedicated card slots.

Does the Unitek Y-9313D support USB Type-C?

Yes. The Y-9313D includes a USB Type-C adapter that allows the card reader to connect to compatible USB Type-C devices.

What is the maximum transfer speed of the Y-9313D?

The USB 3.0 interface supports data transfer rates of up to 5Gbps when connected to a compatible USB 3.0 host.

Can I use a MicroSD card without an adapter?

Yes. The Y-9313D has a dedicated MicroSD card slot, allowing supported MicroSD cards to be inserted directly.

Does the Y-9313D require a separate power supply?

No. The card reader is bus powered and draws its operating power from the connected USB port.

Is the Unitek Y-9313D plug and play?

Yes. The card reader is designed for plug and play operation without complicated driver installation on supported operating systems.

Which operating systems are supported by the Y-9313D?

The listed supported systems are Windows 10 and Windows 11 in 32-bit and 64-bit versions, Linux kernel 3.x and Mac OS 10.6 or above.

What is the size of the Unitek Y-9313D?

The official product specifications list dimensions of 68 x 64 x 14mm, with a 15cm cable.

Is the Y-9313D suitable for photographers and content creators?

Yes. Its SD, MicroSD and CF card support and USB 3.0 transfer capability make it suitable for transferring photographs, videos and other files from compatible memory cards.
