Product Overview

Unitek Y-9323 USB3.1 Type-C/A Micro SD Card Reader

Specifications

About this product

The Unitek USB3.1 Type-C/A Micro SD Card Reader is a dual interface, high speed portable reader for Micro SD cards with both USB Type-C and USB Type-A connectivity. With up to 5Gbps USB3.1 Gen1 transfer performance and plug x play convenience, this compact card reader is ideal for laptops, phones, cameras and other devices. Buy now from our website for fast and reliable file transfer in South Africa.

Overview Summary

The Unitek USB3.1 Type-C/A Micro SD Card Reader combines flexible connectivity with efficient data transfer for Micro SD memory cards. Its dual USB Type-C and USB Type-A male connectors allow direct connection to a wide range of host devices including laptops, desktops, tablets and phones that support OTG file access via USB. Designed for portable use, the reader delivers up to 5Gb per second transfer speed according to USB3.1 Gen1 standards so large photos, videos and documents can be moved quickly between storage and your device without drivers.

Ideal for photographers, content creators and everyday users who need fast and reliable access to Micro SD cards, this

compact accessory also features a durable build and LED activity indicator to show read and write status. The hidden Micro SD card slot helps protect the card when not in use, making it a practical tech companion for home or travel use.

Performance tier:USB3.1 Gen1 High Speed

Uses:Data transfer, file management, media access, device compatibility, portable storage

Description

The Unitek USB3.1 Type-C/A Micro SD Card Reader (model Y-9323) is engineered to provide seamless access to Micro SD memory cards across modern devices. It offers two upstream connection types x USB Type-C and USB Type-A x matching both newer and traditional device ports. With USB3.1 Gen1 technology, the reader supports data transfer speeds up to 5Gbps, reducing wait times when moving large media files or backups. Its compact form factor makes it easy to carry in a pocket or backpack, while the plug x play design requires no driver installation for most operating systems. An integrated LED indicator shows activity status whenever the Micro SD card is being accessed or written.

Features

- Dual connectivity with USB Type-C and USB Type-A male plugs for universal device support.
- USB3.1 Gen1 specification supports up to 5Gbps high speed data transfer performance.
- Plug x play operation allows direct use without additional driver installation.
- Hidden Micro SD card slot offers easy access and protection for the memory card.
- LED read x write indicator shows active data transfer status.
- Compact and lightweight design ideal for travel and on the go use.

What's in the Box

- 1 x User Manual

Specifications

- Model: Y-9323
- Interface: USB Type-C male, USB Type-A male
- Card Slot: Micro SD
- USB Standard: USB3.1 Gen1
- Data Transfer Speed: Up to 5Gbps
- LED Indicator: Yes
- Plug x Play: Yes
- Dimensions: 61.5 x 22 x 9 mm
- Weight: Approx 0.02 kg

FAQ

What devices does this card reader work with?

This card reader works with any host device that supports USB Type-C or USB Type-A connectivity and Micro SD memory card access, such as laptops, desktops, tablets and smartphones that support OTG file transfer.

Do I need to install drivers to use this Micro SD card reader?

No, the Unitek USB3.1 Type-C/A Micro SD Card Reader is plug x play by design and typically does not require any additional driver installation on most operating systems.

What size of memory card does this reader support?

This reader supports standard Micro SD memory cards including Micro SDHC and Micro SDXC formats, facilitating file transfers between media and host devices.

Will the reader work with both USB Type-C and USB Type-A at the same time?

No, the USB Type-C and USB Type-A connectors cannot be used simultaneously; only one upstream connection should be used at a time.

How fast can data be transferred using this reader?

The reader supports up to USB3.1 Gen1 speeds, offering high speed transfer performance up to 5Gbps for quick loading and saving of files.
