Corsair RM Series RM750e 750 Watt 80 PLUS Gold Fully Modular ATX PSU

Product Overview

Corsair RM Series RM750e - 750 Watt 80 PLUS Gold Fully Modular ATX PSU; ATX 3.1 and PCIe 5.1

Specifications

Overview:

CORSAIR RMe Series Fully Modular Low-Noise Power Supplies include a dedicated 12V-2x6 GPU power cable, ATX 3.1 certification and PCIe 5.1 compliance, and Cybenetics™ Gold rated efficiency for a quiet, reliable build. The RMe PSUs' compact size also allow for easier cable management.

Features:

- Fully-Modular design for cleaner wiring
- Native 12V-2x6 cable for high-end GPUs
- Cybenetics Gold-certified efficiency
- Ultra-flexible embossed cables with low-profile combs
- Compact size for improved cable management
- Intel ATX 3.1 Certified, PCIe 5.1 compatible

50 SERIES GPUs ARE HERE

Pair a next-gen GPU with quality CORSAIR components for top-shelf performance and no hassles, right out of the box.

FULLY MODULAR CABLING

Keep cable clutter down by connecting only the cables your system needs. A native 12V-2x6 GPU connector and multiple 8-pin PCIe connectors mean RMe power supplies more than meet the needs of modern and upcoming GPUs and CPUs.

ATX 3.1 CERTIFIED

The ATX 3.1 standard demands a high level of reliability and power efficiency. While many CORSAIR PSUs meet these requirements, RMe Series PSUs are formally certified for ATX 3.1 compliance. PCIe 5.1 12V-2x6 GPU cables included for use with modern and next-gen graphics cards.

CYBENETICS GOLD CERTIFIED

Steady power output at up to 90% efficiency and Cybenetics™ Gold certified for lower power consumption, less noise, and

cooler temperatures.

LOW NOISE OPERATION IN A COMPACT SIZE

A compact 140mm-long casing ensures an easy fit in modern enthusiast PC cases. A 120mm rifle bearing fan with a specially calculated fan curve keeps fan noise down, even when operating at full load.

TECHNOLOGY AND RELIABILITY

For consistent, reliable power and superb electrical performance, each RMe Series power supply features a robust resonant LLC topology with DC-DC conversion and 105 degrees rated industrial-grade capacitors. With precise timings, RMe supports Modern Standby, ensuring extremely fast wake-from-sleep times and better low-load efficiency.

Specifications	
Product Code	CP-9020295-WW
Cybenetics Efficiency	Platinum
Cybenetics Noise	A
ATX Connector	1
ATX12V Version	3.1
Cable Type	Type 4
Continuous Power W	750 Watts
EPS Connector	2
MTBF Hours	100,000 hours
SATA Connector	6
PATA Connector	2
Modern Standby	Yes
Dimensions	140x150x86
Modular	Fully
PCIe Connector	3
Zero RPM Mode	Yes
Weight	2.901
