Specifications

About this product

The Sokany Hair Straightener features advanced copper ceramic technology for smooth, even heat distribution and faster styling. With rapid heating and a 360degrees swivel cord, it allows effortless straightening or curling with professional results. Buy now from our website for quick delivery in South Africa and achieve salon-quality hair at home.

Overview Summary

Product:Sokany Hair Straightener

The Sokany Hair Straightener is engineered with advanced copper ceramic plates that deliver consistent heat while minimizing hair damage. Its rapid heating feature reduces styling time, while the 360degrees swivel cord provides flexibility and comfort during use. This straightener is suitable for all hair types and ensures smooth, shiny results every time.

Lightweight and ergonomic, it makes at-home styling effortless. The temperature control allows for safe use across different hair textures, making it a versatile tool for both straightening and creating curls or waves.

Performance tier:Professional / Home use

Uses:Hair straightening, curling, quick styling, professional hair care, home styling

Overview

The Sokany SK-1928 Hair Straightener delivers salon-quality results with advanced heating technology that reaches up to 950degreesF for fast, effective styling². Its ceramic plates and digital screen allow precise temperature control, ensuring smooth, frizz-free hair for all hair types². With a quick heat-up time and user-friendly design, it's ideal for achieving sleek, shiny hair in minutes

Description

The Sokany Hair Straightener combines advanced technology with user-friendly design. Copper ceramic plates provide even heat and reduce the risk of hot spots, protecting your hair from damage. Rapid heating allows you to style quickly, while the 360degrees swivel cord ensures unrestricted movement for comfortable styling. Suitable for all hair types, this straightener can smooth, curl, or create waves effortlessly, giving professional-quality results at home.

FAQ

What hair types can the Sokany Hair Straightener be used on?

This straightener is suitable for all hair types, including fine, thick, curly, and wavy hair. Adjustable temperature ensures safe styling for each type.

How quickly does the hair straightener heat up?

The Sokany Hair Straightener features rapid heating technology, reaching styling temperature within seconds for efficient hair styling.

Can it be used for curling hair as well?

Yes, the rounded copper ceramic plates and ergonomic design allow you to curl or wave hair in addition to straightening.

Is the swivel cord helpful during styling?

Yes, the 360degrees swivel cord prevents tangling and allows smooth movement while styling, providing more control and comfort.

Is this hair straightener suitable for home and professional use?

Absolutely. It is designed for both professional and home use, delivering salon-quality results safely and efficiently.
