Overview:

Dell EC24250 23.8 Inch Full HD All in One Desktop PC
The Dell 24 All in One Desktop transforms any space into a streamlined, productive setup. Designed with a compact, modern profile and a narrow border display, it delivers immersive visuals, clear communication, and powerful performance in one elegant unit. With a vibrant 23.8 inch Full HD IPS screen, HDR support on a 5MP IR camera, and Dolby Atmos spatial sound, this all in one PC is built for work, learning, and entertainment. Powered by 13th Gen Intel Core processors and running Windows 11 Pro, it provides the speed and intelligence needed for today's multitasking demands.

Description:

The Dell EC24250 All in One PC combines performance, style, and efficiency in a sleek Pearl White design with a fabric speaker grill. It features a 23.8 inch Full HD anti glare display with narrow borders, a powerful 13th Gen Intel Core i5 processor, 16GB DDR5 memory, and a fast 512GB SSD for responsive computing. A 5MP IR tilt camera with HDR enhances video calls, while Dolby Atmos dual speakers deliver immersive sound. With Wi Fi 6E, multiple USB ports, HDMI in and out, and Windows 11 Pro, this desktop offers a complete solution for home offices and modern workplaces.

Features:

Immersive 23.8 Inch Full HD Display
Enjoy crisp detail and accurate color on the 1920 x 1080 IPS display with 99 percent sRGB coverage. The anti glare panel

helps reduce reflections, making it comfortable to use in bright rooms or near windows. Narrow borders create a clean viewing experience that feels larger and more engaging, whether you are editing documents, attending online classes, or streaming content.

Dell ComfortView Plus technology reduces harmful blue light emissions without sacrificing color accuracy, helping to keep your eyes comfortable during extended sessions.

Smart Design That Saves Space
This all in one desktop blends beautifully into both home and office environments. The Pearl White finish and fabric speaker grill give it a refined, contemporary look.

The thoughtfully designed stand helps keep your desk organized, with space to neatly store your keyboard underneath the display when not in use. A conveniently placed side USB C port allows you to charge devices easily while you work.

Powerful 13th Gen Intel Core Performance
At the heart of this Dell All in One PC is the Intel Core i5 1334U processor, featuring 10 cores with a hybrid architecture of performance and efficient cores. With speeds up to 4.6GHz and integrated Intel Iris Xe Graphics, it delivers smooth multitasking and responsive performance for productivity, creative tasks, and everyday computing.

Key performance highlights include:

- 13th Gen Intel Core i5 1334U processor with up to 4.6GHz boost speed
- 16GB DDR5 5200MHz memory with dual SO DIMM slots
- 512GB M.2 PCIe solid state drive for fast boot times and quick file access
- Integrated Intel Iris Xe Graphics for sharp visuals and smooth media playback

This configuration ensures reliable speed for business applications, collaboration tools, and media consumption.

Enhanced Video and Audio Experience
Look sharp and professional in every meeting with the integrated 5MP IR camera featuring HDR technology. It adapts to challenging lighting conditions and supports tilt adjustment from 0 to 20 degrees for the ideal angle. For added privacy, simply push the pop up camera down when not in use.

Dual speakers powered by Dolby Atmos spatial sound provide rich, clear audio. Whether you are video conferencing, listening to music, or watching movies, the sound is immersive and balanced.

Advanced Connectivity for Modern Workflows
This Dell 23.8 inch All in One PC offers versatile connectivity options for expanded productivity.

Available ports and connectivity include:

- 1 x USB 3.2 Type C Gen 2 10Gbps port on the side
- 3 x USB 3.2 Gen 1 5Gbps ports with wake up support
- 1 x USB 3.2 Gen 2 10Gbps port with PowerShare
- HDMI out 1.4b and HDMI in 1.4 for connecting a second monitor or external device
- RJ45 Ethernet port
- SD card reader
- Headset combo audio jack
- Intel Wi Fi 6E AX211 and Bluetooth support

With HDMI in and out, you can connect another PC or an additional display, making this all in one desktop highly adaptable for multitasking setups.

Windows 11 Pro for Smarter Productivity
Preloaded with Windows 11 Pro 64 bit, this Dell desktop delivers a modern interface and powerful productivity tools. Built in AI assistance through Copilot in Windows helps you find answers, organize tasks, and streamline projects more efficiently.

The operating system is designed to support multitasking, enhanced security, and seamless collaboration, making it ideal for professionals and growing businesses.

Sustainable and Forward Thinking Design
This Dell All in One is built with sustainability in mind, incorporating recycled materials and environmentally conscious packaging. It is a smart choice for users looking to upgrade to modern technology while considering environmental impact.

For users seeking a stylish, space saving desktop with strong performance, vibrant visuals, and advanced connectivity, the Dell EC24250 23.8 inch Full HD All in One PC offers a complete and dependable solution.
