1050/1000MB/s high-speed read/write

SC750 supports USB 3.2 Gen2 high-speed transmission specifications with read/write speeds up to 1050/1000MB and transmission bandwidth up to 10Gb per second, meeting the needs of video creators or professional photographers for high-speed access on the move. You can edit and access large files directly on the SC750 for a smooth and uninterrupted workflow.

Compact Size, Cableless Transfer

The SC750 is compact and requires no additional data cables, so you will never worry about misplaced cables again. About the size of a flash drive, the SC750 is easy to carry, lightweight, and does not take up much space. It is perfect for work or travel. Slide out its Type-C connector to get started transferring large files instantly.

Supports Direct Recording on iPhone 16 Pro

The SC750 external SSD adopts a Type-C port and supports file transfers with iPhone 15 series and later models. Record Apple ProRes* videos with high-end iPhones and eliminate the need to purchase a high-capacity model. The SC750 is a painless upgrade for your wallet!

A Virtual Vault for Your Gaming Handheld

Want to download a large number of games but gaming handheld is running out of space? Use the SC750 to backup your collection, eliminating the long wait when re-downloading. Plug and play to quench your thirst for games instantly!

Your Game Library

The SC750 can be connected to the latest generation of game consoles. Games that do not fit on the consoles' internal storage can be stored in the SC750, making it easy to expand your game library and add to your entertainment lifestyle.

Hassle-Free Compatibility

Whether Android, macOS, Windows, or other operating systems, you will not need to worry about compatibility. Just connect via its Type-C port and go.
