Specifications

Overview:

SKU CO-9050143-WW - AF140 ELITE High-Performance 140mm PWM Fluid Dynamic Bearing Fan - White
The CORSAIR AF140 ELITE High-Performance 140mm PWM Fluid Dynamic Bearing Fan - White combines a low-noise design with CORSAIR AirGuide technology for powerful cooling, quiet operation, and exceptional durability.

Features:

AF ELITE Series
High-Performance Fans with AirGuide Technology

HIGH-PERFORMANCE COOLING
The ideal cooling fans for your PC provide optimal airflow to keep components cool at low to medium speeds.

With up to 84.5 CFM of airflow at peak 1,600 RPM, AF ELITE Series fans deliver the perfect balance between low noise, strong static pressure, and high airflow without compromising performance.

Powerful Guided Airflow
CORSAIR AirGuide technology uses anti-vortex vanes to concentrate airflow, delivering improved cooling performance across your system's components.

As Quiet As A Whisper
Thanks to its low-noise design, the AF ELITE Series fan spins as quietly as 31.0 dba.

Designed to support Zero RPM mode, AF ELITE fans eliminate fan noise by only spinning up when temperatures reach the threshold you've set using CORSAIR's iCUE software with a CORSAIR COMMANDER fan controller (sold separately).

Exceptional Durability

A fluid dynamic bearing reduces friction with lubricant between the shaft and bearing, ensuring exceptional durability and lifespan with minimal noise.
