Buy now to enhance your workplace communication.

Performance tier:High-End

Uses: Video calls, Audio conferencing, Enterprise communication, Office management, SIP phone integration

Overview:

Fanvil A320 Android IP Phone for Professional Communication

The Fanvil A320 is a high-end Android IP phone designed for modern office environments. Equipped with a large 10.1-inch color touch screen and running Android 9.0, it delivers a smooth and intuitive user experience. Its smart design makes communication, conferencing, and management tasks effortless for busy professionals.

Description:

This IP phone combines high-quality audio, video, and connectivity options in one device. It supports two-way video calls with a built-in adjustable 8-megapixel camera that includes a privacy cover. Users can manage up to 20 SIP lines, hold 10-party audio conferences, or 3-party video conferences. With 116 programmable DSS keys, HD audio, built-in Bluetooth 5.0, dual-band Wi-Fi, and Gigabit LAN, the Fanvil A320 is perfect for office, management, and enterprise communication needs.

Features:

Large Touch Display and Intuitive Interface

The 10.1-inch color touch screen provides clear visuals and easy navigation. Its Android interface supports smooth operation, customizable shortcuts, and seamless app integration, enhancing efficiency in day-to-day office workflows.

High-Quality Video and Audio

The Fanvil A320 features a built-in adjustable 8-megapixel camera with a privacy cover, enabling secure two-way video calls. Combined with HD audio and advanced conferencing capabilities, it delivers crystal-clear sound for both individual calls and group meetings.

Advanced Connectivity Options

Stay connected with built-in Bluetooth 5.0, 2.4GHz/5GHz dual-band Wi-Fi, and a Gigabit LAN port. These options ensure reliable network performance, whether in a small office or large enterprise environment.

Powerful Conference Capabilities

Manage complex communications easily:

- Support for up to 20 SIP lines
- 10-party audio conferencing
- 3-party video conferencing
- Intercom and monitoring functions

Efficient Management with DSS Keys

The 116 programmable DSS keys allow quick access to contacts, call functions, and monitoring features, simplifying communication for administrators and executives alike.

Ideal for Enterprise and Office Environments

Designed for high-demand workspaces, the Fanvil A320 is compatible with SIP protocols and integrates seamlessly with enterprise phone systems. Its combination of video, audio, and connectivity options makes it suitable for offices, control centers, and management hubs.
