Specifications

Overview Summary:

The Fanvil V66 Prime Business IP Phone is a high-end communication solution for modern offices and professional workspaces. Its 7-inch IPS touchscreen, 20 SIP lines, 116 DSS keys, built-in Wi-Fi 6, Bluetooth 5.4 and dual Gigabit networking provide flexible, efficient business communication.

Ideal for organisations that need a powerful desk phone for daily call handling and conferencing, the V66 supports a wired handset, USB headsets and 6-way local conferencing. Buy now for reliable professional communication, or shop now to upgrade your South African business phone system.

Performance tier:High-end business

Uses:Office communication, VoIP calling, executive desks, reception, call management, multi-line communication, business conferencing

Overview:

The Fanvil V66 Prime Business Phone is a high-end business communication solution designed for users who need advanced voice communication, flexible connectivity and a modern touchscreen interface. It combines a large 7-inch rotatable IPS touchscreen with built-in Wi-Fi 6 and Bluetooth 5.4, making it well suited to busy offices and professional environments where convenient access to communication functions is important.

Description:

The Fanvil V66 Prime Business Phone delivers a versatile communication experience with support for up to 20 SIP lines and 116 DSS keys, giving users extensive options for managing calls, contacts and frequently used functions. Its 7-inch 1024 x 600 IPS touchscreen provides a clear and responsive interface, while the rotatable design allows the display to be positioned for comfortable viewing.

The V66 also supports 6-way local conferencing, making it practical for team discussions and business calls without requiring additional conferencing equipment. A wired handset is included, while USB connectivity allows the phone to work with compatible USB headsets and other USB devices.

Built-in dual-band 2.4 GHz and 5 GHz Wi-Fi 6 provides flexible wireless network connectivity, while Bluetooth 5.4 supports compatible wireless accessories. For installations that prefer a wired network connection, the phone includes two Gigabit Ethernet ports.

Features:

Fanvil V66 Prime Business Phone for Professional Communication

The V66 Prime is designed for demanding business users who require more than a basic desk phone. Its Linux-based system combines a familiar business phone experience with a large touchscreen interface and extensive programmable key support.

With 20 SIP lines and 116 DSS keys, the phone can accommodate users who manage multiple extensions, contacts or call-handling functions. This makes it particularly suitable for reception desks, managers, call-handling environments and other professional workspaces.

Large 7-Inch Touchscreen Display

The 7-inch rotatable IPS touchscreen has a 1024 x 600 resolution, providing a spacious interface for navigating phone

functions and managing calls. The rotatable screen also gives users greater flexibility when positioning the phone on a desk.

Flexible Network and Wireless Connectivity

The Fanvil V66 supports both wired and wireless networking, allowing it to fit into a wide range of office installations.

- 2 x Gigabit Ethernet network ports
- Built-in 2.4 GHz and 5 GHz Wi-Fi 6
- Built-in Bluetooth 5.4
- Linux operating system
- USB Type-A port
- Supports compatible USB headsets and USB devices

The dual Gigabit Ethernet ports are useful for professional desk setups, while Wi-Fi 6 provides a convenient alternative where wireless connectivity is preferred.

Advanced SIP and Call Management

With support for 20 SIP lines and 116 DSS keys, the V66 Prime provides extensive call management capability.

Programmable DSS keys can help users quickly access commonly used functions, extensions and contacts, reducing the need to navigate through menus during busy periods.

The phone also supports 6-way local conferencing, allowing several participants to take part in a conference call directly from the handset.

Comfortable Business Phone Design

The V66 combines a conventional wired handset with a modern touchscreen interface, giving users the choice of familiar handset operation or convenient touchscreen controls. Bluetooth and USB support further expand the range of compatible communication accessories that can be used with the phone.

The Fanvil V66 Prime Business Phone is a strong choice for professional users looking for a feature-rich SIP business phone with touchscreen controls, extensive DSS support, wireless connectivity and Gigabit Ethernet.
